# CRPF TRAINED 573 TRADESMEN UNDER SKILL DEVELOPMENT PROGRAMS

CRPF organized a Recognition of Prior Learning (RPL) Course Certificate distribution programme at SDG ground, Old JNU, Campus, New Delhi on 27/12/2016. 573 Course Certificates were distributed to trained tradesmen of CRPF personnel posted in Delhi & NCR by the Chief Guest Shri Rajiv Pratap Rudy, Hon'ble Minister for Skill Development and Entrepreneurship in the presence of Special Guest Shri Kiren Rijiju, Hon'ble Minister of State for Home Affairs and Shri K. Durga Prasad, DG, CRPF.

Addressing the gathering Hon'ble Minister of State for Home Affairs, Shri Kiren Rijiju said that it was really an uphill task to train 573 personnel in such a short span of time. He appreciated CRPF, on fulfilling the dreams of Hon'ble Prime Minister to make India a skilled Nation under the Pradhan Mantri Kaushal Vikash Yojana (PMKVY). He also appealed all the Central Para Military Forces to implement cashless transaction scheme.

In his address Shri Rajiv Pratap Rudy, Hon'ble Minister for Skill Development and Entrepreneurship said that CRPF is the first Para Military Force to sign MoU with Ministry of Skill Development and trained 573 personnel within a remarkably short period. He said that Shri K. Durga Prasad, DG, CRPF and Shri Sudhir Pratap Singh, the then ADG, CRPF will always be remembered in the history of CRPF for implementing such programme on ground level. He thanked CRPF for fulfilling the dreams of Hon'ble Prime Minister to make India a skilled Nation under

the Pradhan Mantri Kaushal Vikash Yojana (PMKVY).

Shri K. Durga Prasad, DG, CRPF welcomed the Chief Guest and the Special Guest. He said that CRPF, being largest paramilitary force under the Ministry of Home Affairs with pan India presence is shouldering the onerous responsibility of securing the country from any internal strife. It plays a pivotal role in extending the benefits of Skill Development Schemes proposed under PMKVY, not just to the tribals of maoist affected areas, but also to the youth of North East and Jammu and Kashmir. The Force is extending the requisite security and support to skill development trainers who are visiting the hitherto inaccessible interior areas in remote villages to impart the skills to the tribal population.

# MANIPUR UNREST :IS THERE SOME LIGHT AT THE END OF TUNNEL?

**Rajiv Kumar,**
Dy. Comdt, (Int),
Dte. Genl. New Delhi

Bandhs, general strikes and blockades need no description for any Manipuri because every person has been either directly or indirectly victimized by them. Bandh calls are generally made to protest against inaction/indifference of government authorities

towards a particular section of the populations' grievance which are always seen as minor issues. The bandh is supported by volunteers who, more often than not, are educated yet unemployed youth. This often leads to mindless violence, casualty and damage to public and private property. If the Government of India was to rank any of its states for having the maximum number of illegal activities of strikes, bandhs and economic blockades in a year, the crest-

fallen State of Manipur will definitely be "topping the list.

Manipur has been experiencing periodic blockades and violence for the past two years now. It all started with an agitation for **an Inner Line Permit (ILP) system** for Manipur, to restrict entry of 'outsiders' in the state. It was under pressure from valley-based organisations that the Manipur government passed three anti-migrant bills that encapsulated the ILP demand. However, these bills were viewed by Manipur's hill tribes like the Nagas as tools to marginalise them. The **United Naga Council (UNC)** threatened the state government of Manipur with serious consequences if the sadar hills district was created without consulting the nagas. This stand of the UNC was echoed in the statements of the all naga groups. It was precisely to protest against these bills that the UNC had launched the latest economic blockade (Which is effective from 1st November, 2016). This intensified further when the Manipur government announced the creation of seven new districts by bifurcating existing ones – all hill districts were affected. Nagas believe the bifurcation is a clear ploy to divide them by appropriating Naga villages and merging them with non-Naga areas.

## The creation of 7 (Seven) new districts in Manipur:-

State notification No. 16/20/2016-R dated 8th December 2016 announced the creation of 7 new districts in Manipur:-

1. **Kangpokpi**
2. **Kamjong**
3. **Tengnoupal**
4. **Kakching**
5. **Noney**
6. **Jiribam**
7. **Pherzawl**

## REACTION OF UNITED NAGA COUNCIL

On the reports of the approval of the Manipur Government to upgrade Jiribam sub-division into a full

fledged revenue district and carve out Sadar hills district from Senapati district. Various Naga organizations warned of serious consequences of any attempts to part out lands belonging to Naga to form the proposed districts. Naga insurgent groups viz NSCN-IM and ZUF have also warned not to go ahead with the proposal. The issue has become very sensitive causing

an Indefinite "Economic blockade" from the intervening midnight of 1st & 2nd November'2016, called by United Naga Council (UNC) including the banning of the construction of Trans Asian Railways, Jiribam to Tupul and other National projects in all the Naga territories of the state of Manipur came into effect in protest against the alleged lopsided decision to convert two Sub-Divisions i.e. Sadar Hills and Jiribam into a full-fledged Revenue Districts.

## COUNTER BLOCKADE

To tide over the crisis of essential commodities, the state government started escorting goods trucks from Jiribam under heavy escort since 19/11/2016. To further aggravate the problem, some civil organization in the valley started imposing counter economic blockade against the hill districts by putting a ban on supply of goods from the valley to the hills. Cases of vandalisation of vehicles carrying goods to the hills were reported. The present imbroglio over the issue has become very sensitive and there is a possibility of a communal flare-up as a spillover of the blockade and counter blockade that has affected very community in Manipur since 01/11/2016.

## WAY AHEAD

Today, the northeast is passing through a new phase of unrest, causing huge financial loss as and ethnic mistrust, which are the outcome of bandhs, economic blockades and other violent activities, sponsored and spearheaded by a number of insurgent and social outfits. The culture of 'bandhs' (state closure) paramount in the northeastern states like Assam, Manipur and Nagaland goes against the notion of individual rights, is a stigma on the effectiveness of local governance structures and is unconstitutional to say the least. These bandhs adversely affect every aspect of normal life of the people. The most badly affected are the traders, small businessmen, the daily wage labourers and poor locals. These bandhs have a negative impact on their earnings, the education of their children, and other social activities. The low attendance in government offices during bandhs results in a backlog of files, many of which are related to important developmental projects. Closure of financial institutions also affects the people. The time has now come to give serious heed and thought to this menace which is affecting everyone and everything. There is also an urgent need to have a legislation to deal with bandhs and blockades.

# DYNAMICS OF BEING A PSO

**Abhinav Anand**
**DC (VS)**

While studying the intricacies of VIP security, one is always inspired by the qualities that a Personal Security Officer should possess. A Personal Security Officer or a PSO, has been epitomized as "the last bulwark of defence between the life and death of the protected person". Nothing better could describe his role in a simple one liner than this introduction. William Shakespeare's character Jaques has spoken about it in 'As you like it' :-

"All the world's a stage,

And all the men and women merely players;

They have their exits and their entrances;

And one man in his time plays many parts…"

A Personal Security Officer (henceforth PSO) is ideally the protagonist of this stage, VIP Security in our case, who has to simultaneously play many roles, where he "literally acts as the shadow" of a protected person. Naturally in such case, all stakes are high and especially the pride of our esteemed organization i.e CRPF. Such is his crucial role that he is expected to be highly motivated to lay down his life to ensure safety of the protected person (PP). Therefore, has been devised an ideal set of qualities that a PSO should bear. The Do's and Don'ts in the instructions always tend to be exhaustive in search of such 'ideal' character or embodiment in an individual.

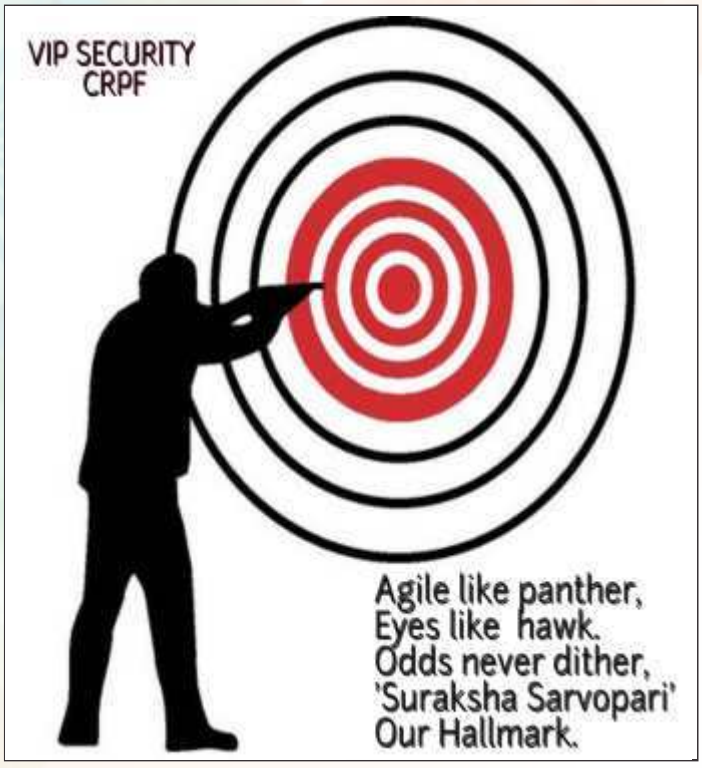

At micro level, these qualities bear resemblance as Officer Like Qualities (OLQ) which is expected from a 'young, physically fit, intelligent and mentally alert' personnel with great reflexes. He is expected to be eyes and ears of a VIP from the viewpoint of his security. Therefore, he is called an 'officer'. A sharp shooter, well trained in UAC, with persuasive ability to solicit cooperation from PP in ensuring safety, quick observing, calm, cool and composed, keeping low profile, ego-less on duty, emotional control, healthy habits (non-alcoholic, non smoking) etc. are few amongst the many qualities that a PSO should possess. Comparing his watchful eyes to a hawk and his agility to a panther is no exaggeration of things when it comes to the

ultimate safety of our protectee, which is the safety of democracy and thus safety of nation.

A PSO is superhero of VIP Security who should be a combo of brain and brawn. A sound application of common sense in just right time frame is what we should understand by brain; while a physically fit, strong and agile body defines brawn. Any such deadly combo for a rank in junior hierarchy of system will definitely be much sought after as the demand supply imbalance widens at such level in forces. Therefore a PSO is an asset and needs nurturing. The incentives could be in form of rewards & encouragement, duty waiver in routine fatigues & administrative works, creating leave reserves for enough rest & recoupment, quick settlement of monetary claims, family permission etc. Also the company commander should select person with right aptitude for this coveted job. Willingness to serve should be the basic principle, but a right frame of mind is over and above such willingness. Here comes the role of a motivating commander, teammates and immediate peer group. A PSO should do refresher training in capsule format at regular intervals at unit level. A reserve pool of ToT personnel for utilisation as PSO trainers would have multiplier effect in building human resource.

I am reminded of the heroics of a PSO of Late Shri Vidya Charan Shukla, a veteran Congress leader during the brutal Naxal attack on Congress leader at Darbha Ghati in Bastar on 25 May 2013. According to eyewitnesses, on being ambushed, Vidya Charan Shukla's PSO, Prafulla Shukla, used his car doors as a shield and shot back at Maoists with his 9 MM service Pistol. When he was down to his last bullet, he told PP that he was sorry that he could not protect him any longer. He then shot himself and died. I was on the spot very next day with my CoBRA team from my Bn Hqr, 60 Kms away from Darbha ghati. The incident place itself spoke of the ruthless brutality of the massive naxal attack taking advantage of the serpentine highway, surprise, stealth and topography around the specific ambush point.

In our own VIP Security Bns, there have been instances, where PSOs have met the expectation of training at right moment with sound application of their mind in crisis situation. These acts have been applauded by protectees themselves. VIP Security Training Centre at GC Greater Noida gives the cutting edge skill to a PSO with professional approach to problem solving. It has devised multiple set of Situation Reaction Tests (SRT),rigorous ground training, classroom interactive sessions, Demo exercises, firing practices at its own range and above all mentorship of highly dynamic and seasoned officers with vast VIP Security experience behind them. It is the beauty of this training that hones skill in a ground level personnel to uplift him to perfection in this vital 'zero error' duty. This high standard of training

manifests in the confident approach to error free decision making at ground Zero i.e the starting point or base for an activity. As Swami Vivekanand once said, "Education is the manifestation of perfection already within man". This VSTC is bringing out those manifestations from the trainees to chisel out ideal PSOs within them.

# क्रोध का परिणाम पश्चाताप

**सत्येन्द्र सिंह**, निरीक्षक/हि.अ.
सम्पादक–सह–प्रभारी,
जनसंपर्क शाखा, महानिदेशालय

यह कहावत सही चरितार्थ होता है कि क्रोधी व्यक्ति पागल के समान हो जाता है अर्थात क्रोधी को अच्छे या बुरे का भान नही रहता और वह क्रोध में ऐसा कार्य कर कर जाता है जो वह करना नही चाहता लेकिन अन्तोगत्वा उसे पश्चाताप का सामना करना ही पड़ता है। क्रोधी को अपने पराये की भी समझ नही होती। इसीलिए मनुष्य को प्रत्येक हाल में क्रोध से दूर रहना चाहिए। एक क्रोधी राजा की कहानी हो सकता है आपको क्रोध से दूर रहने हेतु प्रेरित करे।

एक बार एक राजा घने जंगल में भटक रहा था। राजा को बहुत जोर से प्यास लगी थी। इधर–उधर हर जगह तलाश करने पर भी उसे कहीं पानी दिखाई नहीं दे पा रहा था। प्यास से उसका गला सूखा जा रहा था। तभी उसकी नजर एक वृक्ष पर पड़ी, जहां एक डाली से टप–टप करती थोड़ी–थोड़ी पानी की बूंदे गिर रही थी।

राजा ने एक वृक्ष के पास जाकर नीचे पड़े पत्तों का दोना बनाया और उन बूंदों से दोने को भरने लगा। काफी समय लगने पर वह दोना भर गया। राजा ने प्रसन्न होते हुए जैसे ही उस पानी को पीने के लिए दोने को मुंह के पास ऊंचा किया, तभी वहां सामने बैठा हुआ एक तोता टेंटें की आवाज करता हुआ आया और उस दोने को झपट्टा मारकर वापिस सामने की ओर डाल पर बैठ गया। उस दोने का पूरा पानी नीचे गिर गया।

राजा निराश हुआ कि बड़ी मुश्किल से पानी नसीब हुआ था और वो भी इस पक्षी ने गिरा दिया। लेकिन अब क्या हो सकता है। ऐसा सोचकर वह फिर से उस खाली दोने को भरने लगा। काफी मशक्कत के बाद वह दोना फिर भर गया। राजा ने पुनः हर्षशित होकर जैसे ही उस पानी को पीने के लिए दोने को उठाया तो वही सामने बैठा तोता टेंटें करता हुआ फिर दोने को झपट्टा मारकर नीचे गिरा कर वापिस सामने बैठ गया। अब राजा हताशा के वशीभूत हो क्रोधित हो उठा – 'मुझे जोर से प्यास लगी है। मैं इतनी मेहनत से पानी इकटठा कर रहा हूँ और यह दुष्ट पक्षी मेरी सारी मेहनत को बेकार कर देता है। मैं इसे नही छोडूंगा। अब की बार जब यह वापिस आएगा तो इसे खत्म कर दूंगा।' इस प्रकार वह राजा अपने हाथ में चाबुक लेकर वापिस उस दोने को भरने लगा। राजा ने पीने के लिए जैसे ही उस दोने को ऊंचा किया तो वह तोता पुनः टेंटें करता हुआ उस दोने को झपट्टा मारने पास आया, वैसे ही राजा ने अपने चाबुक को तोते के ऊपर दे मारा और उस तोते के वही प्राण पखेरू उड़ गए।

राजा ने सोचा – 'इस तोते से तो पीछा छूट गया। लेकिन ऐसे बूंद–बूंद से कब तक दोना भरूंगा और कब अपनी प्यास बुझा पाऊंगा, इसलिए जहां से यह पानी टपक रहा है, क्यों ना वहीं जाकर झट से पानी भर लूं। ऐसा सोचकर वह राजा उस डाली के पास पहुंच गया, जहां से पानी टपक रहा था। वहां जाकर जब राजा ने देखा तो उसके पांवों की नीचें की जमीन खिसक गयी।

क्योंकि उस डाली पर एक भयंकर अजगर सोया हुआ था और उस अजगर के मुंह से लार टपक रही थी। राजा जिसको पानी समझ रहा था, वह अजगर की जहरीली लार थी। राजा के मन में पश्चाताप का समुद्र उठने लगा। 'हे प्रभु! मैनें यह क्या कर दिया? जो पक्षी बार–बार मुझे जहर पीने से बचा रहा था, क्रोध के वशीभूत होकर मैंने उसे ही मार दिया। काश! मैंने सन्तों के बताए उत्तम 'क्षमा मार्ग' को धारण किया होता, अपने क्रोध पर नियन्त्रण किया होता तो मेरा हितैषी इस निर्दोष पक्षी की जान नहीं जाती। हे भगवान! मैनें अज्ञानता में कितना बड़ा पाप कर दिया? हाय! यह मेरे द्वारा क्या हो गया? ऐसे घोर पश्चाताप से प्रेरित हो वह राजा दुःखी हो उठा।

सन्त कहते है कि क्षमा और दया धारण करने वाला सच्चा वीर होता है। क्रोध में व्यक्ति दूसरों के साथ–साथ अपना खुद का भी बहुत नुकसान कर लेता है। क्रोध वह जहर है, जिसकी उत्पत्ति अज्ञानता से होती है और अन्त पश्चाताप से होता है। इसीलिए जितना भी हो सके हमेशा क्रोध पर नियन्त्रण रखना चाहिए और क्रोध में आकर कभी कोई ऐसा फैसला नहीं लेना चाहिये कि बाद में पछताना पड़े।

# "Role of Geo-Spatial Technology in Homeland security

SI/T. Anil Kr. Sharma
GIS Cell, IT Wing

Homeland security is a comprehensive and concerted exercise aimed at maintaining the sovereignty and integrity of the state to ensure sustained peace, public order and the rule of law. Today, it encompasses not only normal policing but also border management, coastal surveillance, counter insurgency, cyber security, disaster management and the Left Wing Extremist (LWE) activities in several parts of India.

## Geo-Spatial Technology

GIS is a Technological framework for safe and secure cities in India. Today's security operations are increasingly played out over unfamiliar terrain. peacekeeping operations involve extremely complicated and politically sensitive situation. Time often demands that commanders take immediate decision for which they need to have the tools to promote situational awareness. Some of the questions like..

- **Where are my forces ?**
- **Where are the warring factions ?**
- **How can relief convoys be routed ?**
- **How is the current situation likely to develop ?**
- **Where can troops be housed and fed ?**

can be easily answered with the help of GIS.

A geographic information system (GIS) is a computer-based tool for mapping and analyzing things that exist and events that happen on earth. GIS technology integrates common database operations such as query and statistical analysis with the unique visualization and geographic analysis benefits offered by maps.

Being a force multiplier, geospatial technology will make decision making faster and more informed with supervision becoming more effective and quick. To sum up, GIS is the "third Eye" in LWE area for CRPF, a decision support system tools for defence and homeland security.

### Definition of GIS

A system of computer software, hardware, data and personnel to help manipulate, analyze and present information that is tied to a spatial location, or?

A system for capturing, storing, checking, manipulating, analyzing and displaying data which are spatially referenced to earth.

### Data Management

GIS can do the following :-

Any GIS should be capable of the following fundamental operations in order to be useful for finding solutions to real-world problems.

- Capturing Data :- A GIS must provide methods for inputting geographic (coordinate) and tabular(attribute) data. The more input methods available, the more versatile the GIS.
- Storing data :- There are two basic data models for geographic data storage :Vector and Raster, A GIS should be able to store geographic data in both models.
- Querying data :- A GIS must provide utilities for finding specific features based on location or attribute value.
- Analyzing data :- A GIS must be able to answer questions regarding the interaction of spatial relationships between multiple data Sets.
- Displaying data :- A GIS must have tools for visualizing geographic features using a variety of symbology.
- Output :- A GIS must be able to display results in a variety of formats, such as maps, reports, and graphs.

## GIS DATA MODELS

### Raster data:-

The Raster data is a grid of cells covering an area of interest. Each pixel, the smallest unit of information in the grid, displays a unique attribute. An example of raster data is a scanned image or photograph. A line drawn in a raster format must be defined by a group of pixels along the length of the line. As a result the size of a raster file is larger than that required by a vector file. Data displayed by pixels and grid cells. eg- BMP, JPEG, GIF, DTEM, TIFF, IMG etc.

### Vector data:-

The vector data model represents geography as collection of points, Line and polygons. Vector models are useful for storing data that has discrete boundaries, such as country borders, land parcels and streets. Data represented by pair of coordinates which has magnitude and direction. eg-

SHP,DXF,DGN,DWG,DLG etc.

### Attribute data:-

The attributes refers to the properties of spatial entities. They are often referred to as non-spatial data since they do not in themselves represent location information. Text data in digital form.

### CRPF Perspective:-

Geospatial technology or GIS is one of the key components of the modernisation plan of CRPF. After the success of GIS pilot project, the technology is currently being used on both LWE area, J&K and North Eastern states. Killing of Naxal Leader Kisan Jee on 24-11-2011 was one of the successful example of Geospatial technology.

## Role of Geo-Spatial Technology in CRPF

- Operational planning
- Tracking of troops
- Satellite communication based
- Mobile communication based
- Navigation
- UAV surveillance
- Processing Int data

## Operational planning Software

- Terra Explorer pro (Sky Line)
- ARC GIS (ESRI)
- Google Earth 6.0.3
- Quantum GIS 2.8.1
- COPS(Counter insurgency Operation Planning System)
- GPS Babel
- Map Source (Garmin)

## COPS Software

(Counter Insurgency Operation Planning System) developed by ADRIN.

Aim –physical digitization of layers.

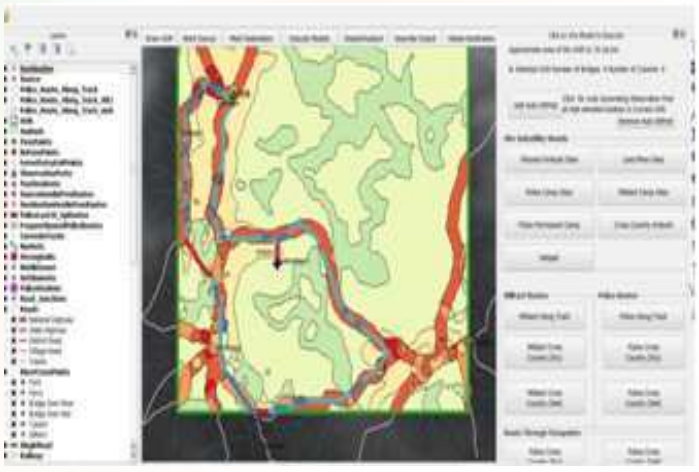

Data—Information—Knowledge---Decision

## Cops Models

A decision support system tool for Real operation planning.

Complet Digitlisation of layer in SHP format.

Cops Model Runs Best /Alt route.

# CRPF EVACUATES PREGNANT CIVILIAN WOMAN

On 11/11/2016 evening a pregnant lady namely Ranu pendi W/O Jitendra Pendi presently residing in "Salwajudum" Camp Jagargunda suddenly fall sick and was brought to CRPF Camp Jagargunda in the state of unconsciousness by his spouse for treatment. Sh Laxmikanta Garai, Asst Comdt. (Officer Commanding C/223) who was available at Camp, provided possible medical assistance to the patient. But the condition of the woman deteriorated and subsequently Sh Laxmikanta Garai & SHO Police Station Jagargunda approached Sh Neeraj Bansod, Collector, Distt. Sukma for her evacuation to Jagdalpur by helicopter for better treatment. Thereafter Collector Sukma Sh Neeraj Bansod discussed the matter with higher authorities but due to non availability of night landing facilities and sensitivity of the area above woman could not be shifted from Jagargunda to Jagdalpur on 11/11/16 evening.

On 12/11/16 at about 0930 hrs above lady was evacuated to Maharani Hospital Jagdalpur for treatment through helicopter. This praise worthy job of the CRPF the officer was appreciated by Civilians.

To strike at the CPI (Maoists) in the area of their stronghold, CRPF, in co-ordination with local Police, launched focussed operations in Sukma district (Chhattisgarh). Raids/Searches were conducted in the core areas of maoist dominance. These operations had been strategically planned in three Phases and Zones to also pre-empt celebration of PLGA week by Maoists from 2nd Dec to 8th Dec-2016.

**17/11/2016**

CoBRA troops (204 CoBRA) along with state police carried out special operation in village Bhattiguda, under PS: Basaguda, Distt: Bijapur (CG). During the operation an encounter broke out between security forces and maoists in which one maoist was neutralised. Troops also recovered Two Bharmar rifles, Four IEDs, Two Pipe bombs, Four Detonators and other incriminating items

**11/12/2016**

CRPF troops (168 Bn) along with state police laid Ambush near Timapur Camp, PS: Basaguda, Distt: Bijapur (CG). During the operation an encounter broke out between security forces and maoists in which one maoist was neutralised. Troops also recovered 10 empty cases (SLR-7 rounds & 303 bore-03 rounds).

**13/12/2016**

Acting on own intelligence, CoBRA troops (204 CoBRA) along with state police carried out search and destroy operation between village Tarem and Peddagelur, PS:Basaguda, Distt: Bijapur. During the operation an encounter broke out between security forces and maoists in which one maoist namely Somoru Puttam (20 years, r/o Gangloor) was neutralised. Troops also recovered One 12 bore rifle, one misfired round of 12 bore, Two meter cordex wire, one video player with other incriminating items

**18/12/2016**

CRPF troops ( 199 Bn) along with state police carried out search and destroy operation at nearby areas

of village Phuladi, PS : Mirtoor, Distt: Bijapur. During the operation an encounter broke out between security forces and maoists in which one maoist was neutralised. Troops also recovered one country made Bharmar rifle along with other incriminating items.

## JHARKHAND

**23/11/2016**

Giving a major blow to CPI(Maoist) organisation in the state of Jharkhand, troops of 209 CoBRA in a bold encounter neutralised six maoists in

the forest of Karamdih, PS-Chippadohar, Distt-Latehar, Jharkhand. Based on specific information about likely movement of armed cadres in the Burha Pahar forest area an operation was launched. Braving all odds and negotiating tough terrain, the CoBRA troops reached the vicinity of the likely camping area of maoists. A fierce exchange of fire ensued when the maoists were challenged. One INSAS rifle, two SLRs, three .315 Rifles, one Carbine, eleven Magazines, 544 rounds of ammunitions, four hand grenades and huge amount of warlike store alongwith other incriminating and camping items were also recovered from the site of exchange of fire.

**19/12/2016**

Giving a major blow to CPI(Maoist) organization in Jharkhand, on 19/12/2016, CRPF troops of 11 Bn apprehended two TPC members along with

one AKM rifle, one INSAS rifle, two 303 Bolt action rifles, one .315 bore rifle, AKM ammunition(175 rounds), INSAS ammunition(139 rounds), .303 ammunition (294 rounds), .315 ammunition(90 rounds) along with magazines and other incriminating items from Karamdag (v.), PS : Herhanj, District : Latehar.

In an another operation from village Parheria, under PS Katkamdag, Distt : Hazaribag (Jharkhand), two JPC members were apprehended and two 7.62 mm SLR, one AK-47 rifle, one Semi Automatic Rifle (country made), two walkie talkie sets and other incriminating items were recovered by the troops of 22 and 154 Bn from the apprehended JPC members.

## ODISHA

About 550 maoists and their supporters surrendered during the month before the SFs/Malkangiri

Police including armed cadres, militia members, sympathizers, village committee members and supporters. The mass surrenders have predominantly been from PS Kalimela in district Malkangiri. Incidentally, Kalimela PS limits have traditionally been amongst the strongest maoist bases of AOBSZC. Such mass surrenders would gradually diminish the mass support that CPI (Maoists)/PWG have enjoyed in the area for over the last three decades.
