के.रि.पु. बल ने मनाई द्रुत कार्य बल की 28वीं वर्षगांठ

CRPF ने अपनी रैपिड एक्शन फोर्स की 28वीं वर्षगांठ को उत्साह और उल्लास के साथ मनाया। 1992 में, दंगों और कानून व्यवस्था संबंधित स्थितियों से निपटने के लिए एक विशेष बल के रूप में गठित किए गए आरएएफ ने अपने साहस और प्रतिबद्धता के बल पर एक विशिष्ट पहचान बनाई है। नीली कैमोफ्लेज वर्दी पहने आरएएफ के शांति रक्षक प्रभावशीलता और 'संवेदनशील पुलिसिंग के साथ मानवता की सेवा' के प्रतीक बन गए हैं। राष्ट्र की सेवा में 28 गौरवशाली वर्षों के पूरा होने के महत्वपूर्ण अवसर पर सीआरपीएफ अकादमी, गुरुग्राम में बल ने भव्य परेड का आयोजन किया।

गृह राज्य मंत्री, श्री नित्यानंद राय कार्यक्रम के मुख्य अतिथि थे। अपने संबोधन में, मंत्री जी ने दिल्ली दंगों से निपटने में बल के प्रभावी योगदान और देश भर में किये गए मानवीय कार्यों के लिए सभी बल कर्मियों को बधाई दी। उन्होंने संयुक्त राष्ट्र मिशनों में अनुकरणीय कार्य के लिए भी बल की सराहना की।

इस अवसर पर महानिदेशक सीआरपीएफ डॉ ए.पी. माहेश्वरी ने राष्ट्र को आश्वस्त करते हुए कहा कि आरएएफ पूरी प्रतिबद्धता और साहस के साथ देश की सेवा करती रहेगी। बदलते परिवेश में आरएएफ की नयी भूमिका को रेखांकित करते हुए उन्होंने कहा कि समाज में असंतोष और अशांति पैदा करने के लिए असामाजिक तत्व धीरे-धीरे साइबर स्पेस और सोशल मीडिया का सहारा ले रहे हैं, इन चुनौतियों से निपटने की दिशा में भी बल ने खुद को तैयार किया है।

इस अवसर पर मुख्य अतिथि ने आरएएफ गीत का लोकार्पण भी किया। महबूब आलम कोटवाल द्वारा लिखे, रंजीत बारोट के संगीत में सुप्रसिद्ध गायक शान द्वारा गाया गया यह गीत सर्वत्र शांति की भावना से ओत प्रोत है।

परेड के बाद बल की वीरांगनाओं ने अपनी मनोरम राइफल ड्रिल कर सभी को अपनी कला, अनुशासन, व सामंजस्य से प्रभावित किया। आयोजन के दौरान COVID-19 महामारी से लड़ने के लिए सभी सुरक्षा प्रोटोकॉल और सरकार द्वारा जारी किए गए निर्देशों का सख्ती से पालन किया गया।

के.रि.पु. बल के दिव्यांग योद्धाओं ने निकाली साईकिल रैली

केंद्रीय रिजर्व पुलिस बल के आंतरिक सुरक्षा योद्धा कई क्षेत्रों में सक्रिय रूप से देश की सेवा कर रहे हैं। कर्तव्य पथ पर कई बार उनके जीवन और अंगों के लिए खतरा बना रहता है। CRPF के अनेक शूरवीरों ने राष्ट्र की सेवा में सर्वोच्च बलिदान दिया है। कई निर्भीक योद्धा गंभीर रूप से घायल होते हैं और अपनी सेवा के दौरान महत्वपूर्ण अंग खो देते हैं। इन योद्धाओं के गौरव, मनोबल और आत्मविश्वास को पुनर्स्थापित करने के उद्देश्य से CRPF द्वारा कई कार्यक्रम शरू किए हैं। इसी अनुक्रम में स्किलिंग और रीस्किलिंग कार्यक्रम की शुरुआत की गयी है, जिसमें दिव्यांग योद्धा पहले पैरास्पोर्टस के लिए और बाद में साइबर योद्धाओं के रूप में कौशल प्राप्त करेंगे।

कभी हार न मानने वाले इन दिव्यांग योद्धाओं की एक टीम ने गुजरात के साबरमती आश्रम से दिल्ली के राजघाट तक एक साइकिल रैली निकाली। गुजरात के राज्यपाल, आचार्य देवव्रत जी ने अपने ई-संदेश के साथ रैली का शुभारंभ किया। गुजरात के मुख्यमंत्री श्री विजय रूपानी ने अपने ट्वीट के माध्यम से दिव्यांग योद्धाओं के साहस की सराहना की। 17.09.2020 को शरू हुई रैली 2 अक्टूबर को महात्मा गांधी जयंती पर राजघाट पर संपन्न हुई। लगभग 1000Km की दूरी तय करने के बाद, यह रैली अपनी 16 दिन की यात्रा के दौरान गुजरात, राजस्थान और हरियाणा से होकर गुजरी। जैसे-जैसे यह रैली अपने मार्ग पर विभिन्न सीआरपीएफ कैम्पों तक पहुंची, उन कैम्पों के अधि कारी और जवान भी रैली में शामिल हुए।

महानिदेशालय में हिंदी दिवस समारोह

14 सितम्बर, 2020 को केंद्रीय रिजर्व पुलिस बल के मुख्यालय में हिंदी दिवस-2020 का आयोजन किया गया। बल के महानिदेशक डॉ. आनंद प्रकाश माहेश्वरी, ने राष्ट्रपिता महात्मा गांधी की उक्ति राष्ट्रीय व्यवहार में हिंदी को काम में लाना, देश की शीघ्र उन्नति के लिए आवश्यक है, से अपना संबोधन प्रारंभ किया। उन्होंने कहा कि महात्मा गांधी ने इस देश को न केवल आजादी दिलाई वरन् राष्ट्र-संचालन के लिए एक सम्यक् चिंतन भी प्रदान किया।

उन्होंने इस बात पर जोर दिया कि जिन देशों ने उन्नति की है उनकी अपनी एक भाषा के रूप में भी पहचान बनी है, वे अपनी भाषा में बात करने में गर्व महसूस करते हैं। अपनी भाषा में जो बात की जाती है, उससे जो भाव उत्पन्न होता है वह किसी अन्य भाषा में नहीं होता है। भाषा किसी भी देश की ताकत और उसकी पहचान होती है। भारत एक बहुभाषी राष्ट्र है, किंतु हिंदी भारत की सबसे बड़ी सम्पर्क भाषा है जो कमोबेश देश के हर क्षेत्र में बोली व समझी जाती है। हिंदी की इसी व्यापकता और भारतीय जन-मानस में उसकी गहरी पैठ के कारण इसे राजभाषा का दर्जा दिया गया है। उन्होंने यह भी कहा कि आज अनुवाद के सरलीकरण करने का प्रयास किया जा रहा है जिससे और किसी भी भाषा को लिखित भाषा में अनुवाद कर सरलता से काम किया जा सकता है।

हिंदी को भारतीय चिंतन और संस्कृति का वाहक भी माना गया है जो देश को एक सूत्र में बांध कर रखती है और जो देश के संपूर्ण विकास के लिए आवश्यक है। डॉ. माहेश्वरी ने कहा कि उनके बल के अंतर्गत राजभाषा नीति स्पष्ट है और उनका यह सतत् प्रयास रहा है कि बल में अधिक से अधिक शासकीय कार्य राजभाषा हिंदी में सरल और बोलचाल की भाषा में किय जाए। उन्होंने यह भी बताया कि जो कंप्यूटरीकृत प्रणालियां प्रचलित हैं, उनमें भी हिंदी के प्रयोग की समुचित व्यवस्था की गई है।

हिंदी दिवस के अवसर पर उन्होंने सेक्टर राजभाषा रनिंग शील्ड प्रतियोगिता में प्रथम एवं द्वितीय स्थान प्राप्त करने वाले क्रमशः मणिपुर एवं नागालैंड सेक्टर, इम्फाल एवं कोबरा सेक्टर, दिल्ली को राजभाषा रनिंग शील्ड प्रदान की। इसी क्रम में अनुभाग स्तरीय राजभाषा रनिंग शील्ड प्रतियोगिता में क्रमशः प्रथम एवं द्वितीय स्थान प्राप्त करने वाले महानिदेशालय के स्थापना एवं संभरण अनुभाग को राजभाषा रनिंग शील्ड प्रदान की गई।

हिंदी दिवस/पखवाड़ा के दौरान आयोजित हिंदी कार्यशाला, हिंदी टिप्पण/आलेखन व हिंदी टंकण एवं हिंदी व्यवहार प्रतियोगिता में प्रथम, द्वितीय व तृतीय स्थान प्राप्त करने वाले सभी विजेताओं को नगद पुरस्कार एवं प्रशस्ति पत्र प्रदान कर सम्मानित किया गया। पुरस्कृत कार्मिकों का विवरण निम्न प्रकार है।

प्रतियोगिता	क्रम	बल सं.	पद	नाम	अनुभाग	स्थान	पुरस्कार राशि
हिंदी कार्यशाला सत्रांत परीक्षा	1	951550068	उपनि./मंत्रा.	उमेश सिंह	आयुध	प्रथम	रु. 2500/-
	2	037280156	उपनि./मंत्रा.	कृष्ण कुमार	पी.आर.ओ.	द्वितीय	रु. 2000/-
	3	035206832	सउनि./मंत्रा.	मुकेश कुमार	प्रशासन- एक	तृतीय	रु. 1500/-
हिंदी टिप्पण/ आलेखन प्रतियोगिता	1	931820088	उपनि./मंत्रा.	मधु सूदन सरकार	संभरण	प्रथम	रु. 2500/-
	2	015185974	उपनि./मंत्रा.	प्रदीप कु. श्रीवास्तव	प्रोक्योरमेंट	द्वितीय	रु. 2000/-
	3	015082863	उपनि./मंत्रा.	सल्ला राम	प्रशासन- एक	तृतीय	रु. 1500/-
हिंदी टंकण प्रतियोगिता	1	074020064	सउनि./मंत्रा.	भावेश कुमार	कल्याण	प्रथम	रु. 2500/-
	2	025181195	सउनि./मंत्रा.	नवीन मौर्य	निर्माण	द्वितीय	रु. 2000/-
	3	060470019	सउनि./मंत्रा.	कमल सोनी	स्थापना	तृतीय	रु. 1500/-
हिंदी व्यवहार प्रतियोगिता	1	095121678	सउनि./मंत्रा.	हरि नारायण झा	संचार	प्रथम	रु. 2500/-
	2	953070019	उपनि./मंत्रा.	राजीव कुमार	आयुध	द्वितीय	रु. 2000/-
	3	095070898	सउनि./मंत्रा.	प्रभात कुमार झा	कार्मिक	तृतीय	रु. 1500/-

इस अवसर पर बल के महानिदेशक ने सीआरपीएफ समाचार ''राजभाषा विशेषांक'' का विमोचन भी किया। साथ ही उन्होंने हिंदी दिवस के अवसर पर सीआरपीएफ समाचार, राजभाषा विशेषांक के प्रकाशन के लिए श्री अंशुमान यादव, महानिरीक्षक, आसूचना सहित उनकी टीम को भी बधाई दी। सीआरपीएफ समाचार में प्रकाशित कोबरा सेक्टर मुख्यालय के निरीक्षक डी.के. शर्मा की प्रकाशित कविता की दो पंक्तियां उद्धत करते हुए उनको बधाई दी और इस कार्यक्रम को संपन्न कराने में सम्मिलित सभी अधिकारियों और कार्मिकों को हिंदी दिवस की शुभकामनाएं दीं।

के.रि.पु. बल ने फिट इंडिया मूवमेंट में एक करोड़ किलोमीटर के लक्ष्य को किया पार

CRPF के आंतरिक सुरक्षा योद्धा पूरी लगन और समर्पण के साथ देश की सेवा कर रहे हैं। शारीरिक दक्षता और कर्मियों की कुशलता को बल में काफी महत्व दिया जाता है जो इसकी परिचालन दक्षता की निरंतरता के लिए अपरिहार्य है। इसी भावना के साथ सीआरपीएफ ने फिट इंडिया और खेलो इंडिया मूवमेंट में बढ़ चढ़कर भाग लिया और 15 अगस्त से 2 अक्टूबर 2020 के बीच 1 करोड़ 50 लाख किलोमीटर पूरे कर अपने 1 करोड़ किलोमीटर दौड़ने के लक्ष्य को पार कर लिया।

लक्ष्य प्राप्ति को चिह्नित करते हुए नई दिल्ली में बल द्वारा एक रन का आयोजन किया गया। 1961 में अर्जुन अवार्ड प्राप्त करने वाले पहले खिलाड़ी, श्री जी.एस. रंधावा, पद्मश्री, कमांडेंट (सेवानिवृत्त), सीआरपीएफ, द्वारा झंडी दिखाकर रवाना किए गए इस रन में, न केवल डॉ. ए.पी. माहेश्वरी, महानिदेशक, CRPF सहित बल के जवानों ने भाग लिया, बल्कि खेल जगत के दिग्गजों, जैसे कि ओलंपिक पदक विजेता श्री सुशील कुमार, पद्मश्री, अर्जुन पुरस्कार विजेता श्री खजान सिंह, डीआईजी सीआरपीएफ, अर्जुन पुरस्कार विजेता सुश्री कुंजरानी देवी, कमांडेंट सीआरपीएफ, और अर्जुन पुरस्कार विजेता श्री परमजीत सिंह, द्वितीय कमान अधिकारी सीआरपीएफ ने रन में हिस्सा लेकर सबका उत्साहवर्धन किया। विजय चौक से शुरू होकर रन इंडिया गेट पर संपन्न हुआ। सीआरपीएफ कर्मियों के उत्साह और अटूट भावना के प्रति अपनी प्रशंसा व्यक्त करते हुए, महानिदेशक महोदय ने रेखांकित किया कि अपनी तैनाती के स्थानों पर, बल ने फिट इंडिया फ्रीडम रन में स्थानीय समुदायों की भागीदारी भी बड़े मनोयोग से सुनिश्चित कराई है।

देश भर में सीआरपीएफ के संस्थानों में कई ऐसे रन आयोजित किए गए, जिसमें बल के कार्मिकों के साथ-साथ उनके परिवारों और नागरिकों ने भी बड़ी सक्रियता से भाग लिया। CRPF में समाज से जुड़कर और सबको साथ लेकर चलने की परंपरा हमेशा से रही है, और इसी दिशा में बल समुदायों की भागीदारी विभिन्न आयोजनों में सुनिश्चित और प्रोत्साहित करता आ रहा है।

CRPF Collaborates with IIT-Delhi, DRDO, and JATC to Augment its R&D Capabilities

CRPF-the lead internal security force of the nation is actively deployed in several theaters and regions. The emerging challenges and engagement with technology in everyday world entails that the force remains updated not just with most recent technologies and gadgets but also with the technical expertise required by its personnel. The force has made persistent efforts in keeping pace with the latest technologies by adopting them in its core functions. The force is now working to create a pool of highly specialized technology experts from among its officers. And when it comes to Technology, where to look other than the Citadels of tech and research-Indian Institute of Technology Delhi and DRDO. To this end an MOU was signed between CRPF and the two premier institutions. A pioneer batch of 40 engineering graduate officers/subordinate officers of CRPF with right aptitude and potential are undergoing 3-4 months certificate course under IIT Delhi's Continuing Education Program. This will equip them with unique skills, capabilities, and knowledge to tackle complex challenges, meet operational and strategic needs and enhance competitive advantage. Furthermore, a few selected officers from this trained batch will undergo higher degree courses at IIT-Delhi. These trained officers will also act as tech advisors to the force.

The officers/SOs of CRPF trained by IIT-Delhi will also be associated with joint research projects undertaken by DRDO and IIT-Delhi in the field of defense/security tech solutions.

Shri V. Ramgopal Rao, Director IIT-Delhi and Dr A.P. Maheshwari, DG CRPF along with senior officers of CRPF were present at the event where Prof Naresh Bhatnagar from IIT, Shri Sudhir Gupta DG TM DRDO, Dr M H Rahaman, Director JATC and Shri Nalin Prabhat, IG Ops CRPF signed the MOU at Senate Hall, IIT Delhi campus. The DG thanked IIT-Delhi and DRDO for the collaboration and congratulated the force personnel on getting this valued platform to gain coveted tech expertise. The DG said that this initiative aims at capacity building for optimal utilisation of police technologies and will also help in integrating with DRDO labs for realistic indigenisation of technologies on internal security grid. The initiative will also provide operational feedback on futuristic technologies enabling IIT Tech experts towards proactive R&D.

Challenges Faced by CRPF and other Forces engaged In Tackling IED Menace

IEDs: Enormity and genesis of the problem

IED or more commonly known as "bomb" in civilian parlance is a homemade bomb, made by improvisation from military or non-military grade explosives. IEDs constitute an initiation mechanism (improvised to suit to the requirement), a detonator (controlled store, produced by authorized or licensed manufacturers), an explosive charge, and a collection of projectiles to produce lethal fragments upon detonation. IEDs are fabricated using materials that are readily available and commonly used in daily household activities, like fertilizer, fuel oil, nail polish remover, hair dye, etc. The possibility of known explosives, like TNT, gelatin sticks, etc. and other explosives available to licensed users, falling into the hands of ANE (Anti-National Elements) cannot be ruled out. But, in most of the cases, detonators are a common constituent in all the IEDs. These detonators are produced and distributed under strict control. The jaw-dropping impacts of explosions, initiated with the help of a detonator, can be seen in the picture 1.

The term "improvised" in IED is indicative of the fact that there is a wide range of options available for improvisations, in terms of :

1. Material
2. Initiative
3. Mechanism and
4. Placement or delivery system

As a result, the detection of an IED before explosion always remains an uphill task.

Different approaches to the problem

The reactive approach to IED menace

To address the problem, the direct approach is to detect IEDs (before it explodes). We are focused to imagine and develop devices to augment observation, surveillance, detection, pre-initiation and post-blast investigation. To counter the threat posed by one bag of fertilizer, costing merely Rs 350, hundreds of millions of rupees are spent on sensors, detection and disposal equipment, and various protective gears. This is a classic example of the reactive response.

Dhiraj Kumar
DIG
IIM, Pune

CRPF, the force, bearing the major brunt of the menace, has experimented with training dogs to sniff IEDs; at Dog Breeding and Training School (DBTS) Taralu, Bengaluru. It is also training personnel for better observation and detection, at the Institute of IED Management (IIM) at Pune. It is experimenting with all kinds of equipment available off the shelf and also working with innovators and scientific community to develop customized solution for the detection of IED (buried or otherwise) from a stand-off distance. For surveillance, it is experimenting with CCTV/PTZ cameras. These efforts have paid dividends in terms of more recoveries than blast incidents, resulting in saving precious lives and resources.

The number of blast incidents were at peak in 2007, whereas, the recovery was highest in 2015. The blast to recovery ratio, which was 0.2458 in 2007, has come down to 0.0638 in 2018. However, the data in 2019 has shown an upward trend, which is a matter of concern. As flagged above, this is an approach that can be categorized as a reactionary approach, where state agencies have attempted to observe and detect an IED that is designed to deceive. One must be very alert, sensitive, and lucky to detect a concealed IED successfully. Even after detections, the forces have suffered losses due to multiple initiating mechanisms and booby traps. This approach should be, at the most, the last resort, when all other approaches fail to work.

Picture 1 paints the ominous pictures of the impact of IED explosions. The optics and psychological impact such blasts create, deters the state forces to venture out in the hinterlands of the conflict zones. (see the box).

Picture-1

Table 1: Data, at table 1, depicts the decline in the blast to recovery ratio, over the years:

Year	No of IEDs		Blast to recovery ratio IED
	Recovered	Blasts	
2007	297	73	0.2458
2008	238	42	0.1765
2009	234	44	0.1880
2010	366	45	0.1230
2011	513	28	0.0546
2012	587	24	0.0409
2013	466	14	0.0300
2014	455	33	0.0725
2015	1122	37	0.0330
2016	306	22	0.0719
2017	588	32	0.0544
2018	392	25	0.0638
2019	238	22	0.0924
Total	6374	555	0.0871

The magnitude of the menace and toll taken by CRPF is evident from table 2 :

Table 2: Source: Data cell Ops Dte, CRPF

Year	No. of CRPF Personnel	
	Martyred	Injury
2014	19	67
2015	04	47
2016	23	47
2017	14	18
2018	15	16
2019	44	39
Total	**119**	**234**

2019 had witnessed a deadly Pulwama attack, raising the toll to 40 in a single incident. Barring Pulwama incident, 2019 was as good as 2015, if casualties are counted and better than 2015, if, injury is also included. This comes to an average of 20 deaths and 39 injuries per year for CRPF. World over, as per FBI (source) data center, more than 71% of casualties of security forces are attributed to IED. In 2018, though the blast to recovery ratio was in favour of CRPF, 82% of the casualties to SFs, in LWE theatre, were due to IEDs, which was substantially higher than the

world average. Therefore, this challenge remains paramount for the country and needs to be addressed with the desired level of urgency.

Pulwama Terror attack, high profile IED attack killing one MLA in Dantewada, Chhattisgarh, and latest attack in Gadchiroli are quite fresh in memory.

The proactive approach- the need of the hour

The following data regarding recoveries of explosives and detonators provide some understanding about one of the prime contributing factors. The data reflects only the recoveries made by CRPF over the years.

Table 3

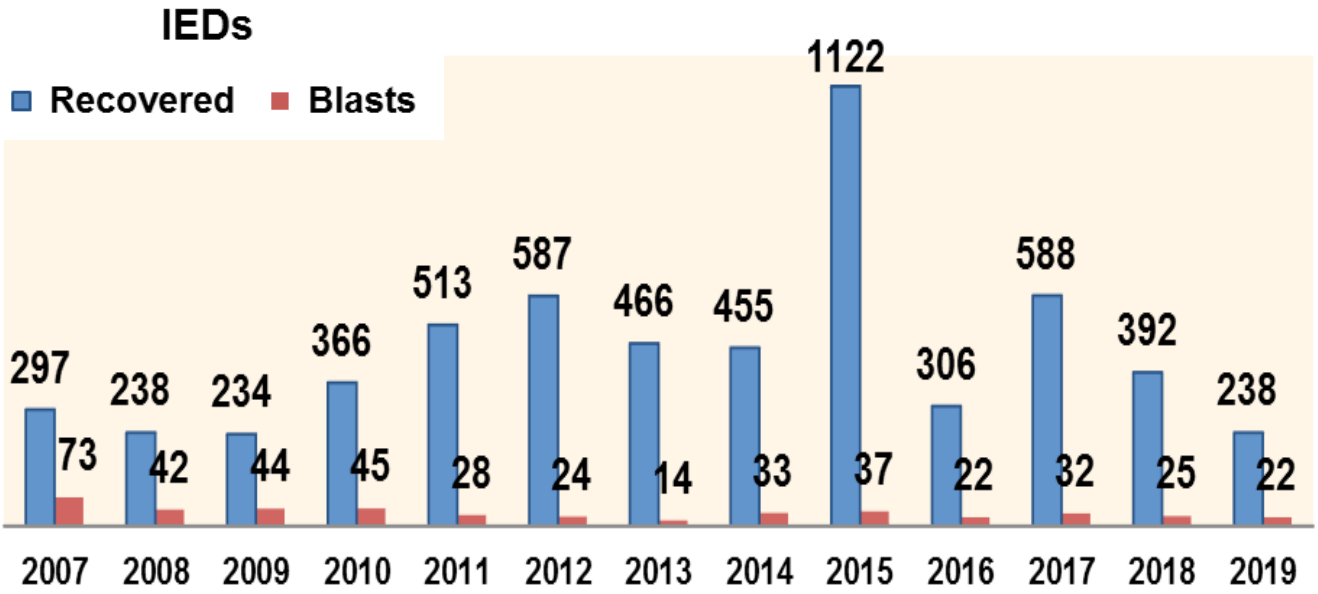

Year	No of IEDs	Qty of explosives (kg)	No of detonators	No of gelatin sticks
2012	587	21474.50	16130	1299
2013	466	9916.73	2572	1413
2014	455	11657.64	9943	3004
2015	1122	3819.05	20781	5973
2016	828	1639.43	24283	7931
2017	588	865.32	203590	6132
2018	392	1450.62	10324	4247
2019	238	668.32	8734	8092
Total	4676	51491.61	296357	38091

Source: Data Cell Ops Dte, CRPF

From the data, the following inferences can be drawn:

Picture 2 Suicidal attack on CRPF convoy on 14 Feb 2019-VBIED

Source: Data cell Ops Dte, CRPF

(i) CRPF recoveries, may, at the best, be estimated to be the highest amongst all the CAPF and sister agencies.

(ii) For obvious reasons, the recoveries would form just a minuscule percentage of the total pilferage. If that be so, the estimated level of pilferage can be assessed. This underlines the magnitude of leakage, which is so high, and the need to plug the gap(s), if any.

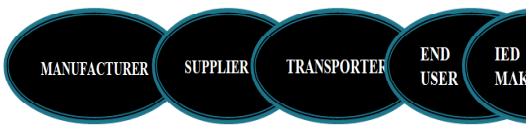

(iii) Explosives/detonators, illegally falling into the hands of the adversaries, provide them the wherewithal and option to strike at will. All stakeholders, involved in the supply chain, need to take note of this bitter truth.

In Chhattisgarh, there are still some areas, that are dominated by the Maoists. Local villagers, in these areas, also act as their informers, either due to coercion or sympathy. In the absence of road connectivity, security forces are compelled to traverse (on foot) up to a distance 40 km, with all the loads of logistics as well as armaments, to reach the hinterland, which has generally very hostile environment. Since all the tracks leading to such hinterland are mined with IEDs or prone to ambushes, the force personnel traverse cross country, thereby drastically reducing the cruising speed. This provides ample time and opportunity to the Maoists, to leave the area and thus, the engagement mostly becomes incidental or at their will. There have been many instances where the force personnel have stepped on anti-personnel IEDs losing their lives or limbs. Such challenges can be better addressed if the possibility of IEDs and spikes are reduced.

Tracking the source of pilferage and fixing responsibility

CRPF made several efforts to trace the source of pilferage of explosives and detonators, recovered during operations. However, it was difficult to connect the dots.

It is imperative to plug the loopholes in the supply chain (network) to check the pilferage of explosives and detonators. Fig 1 below is a schematic representation of the supply chain. Considering the havoc created by the asymmetric weapon of choice of the adversaries, ie IED, on the national psyche, the issue of backtracking, with the objective curb the scourge of IEDs, should have been a priority item for all the stakeholders. To help backtracking, System for Explosive Tracking and Tracing (SETT), Project was launched by PESO, during 2019.

System for Explosive Tracking and Training Project (SETT)

The quantity of explosives produced in our country is enormous. Tracking and tracing of approx 20 lakh metric tons of explosives, produced in the country, annually, could never be imagined. But, thanks to SETT, it would soon be possible, as stated by PESO. SETT has been rolled out to digitize the inventory, through barcoding, right from the manufacturer to the end-user, which will enable the effective real-time monitoring throughout the supply chain. This is intended to ultimately prevent pilferage of explosive materials and detonators (commercially produced). However, certain constraints are coming in the way of PESO as well. Simultaneously, concerns have also been raised on the fact that all such barcoding for digitalization would be fragmented after the blast. To address that it has been impressed that some inert material (Taggants)might be added to explosive which leaves a footprint or signature of the supply chain.

Taggants

Another approach to address the menace could be to introduce the following two types of taggants in the manufacturing of commercial explosives for better detectability and backtracking.

1. **Detection taggants**- Scientific community should work towards finding at inert volatile chemicals, to be added to the explosives, which would slowly evaporate, rendering them easily detectable by K-9 or specialized equipment.
2. **Identification (or post-detonation) taggants**- On the similar lines, the scientific community should also work towards developing substances, to be added to the explosives, so that, post-explosion, clues could be found out regarding the details of manufacturers/end-users, from the remnants at the blast site. This would make backtracking easier and an element of deterrence would ensue.

Ban on use of instantaneous detonators

For an IED, a detonator (highly sensitive) is required to initiate the process of the blast, by providing the threshold energy to high explosives. Detonators are produced by Govt agencies. There are two kinds of detonators, one that explodes instantaneously and another with a delay. One way of addressing IED menace is to ban instantaneous detonators which would make it difficult to ensure the precision timing of the blast. Towards this end, the possibility of banning

of instantaneous detonators was discussed with the manufacturers and control agencies. Some of the industrialists opined that inbuilt delay in detonation would jeopardize the entire process and they cannot adopt this idea. Instead, it was suggested that the pilferage, which takes place mostly, at the end-user's level, should be controlled with stricter measures.

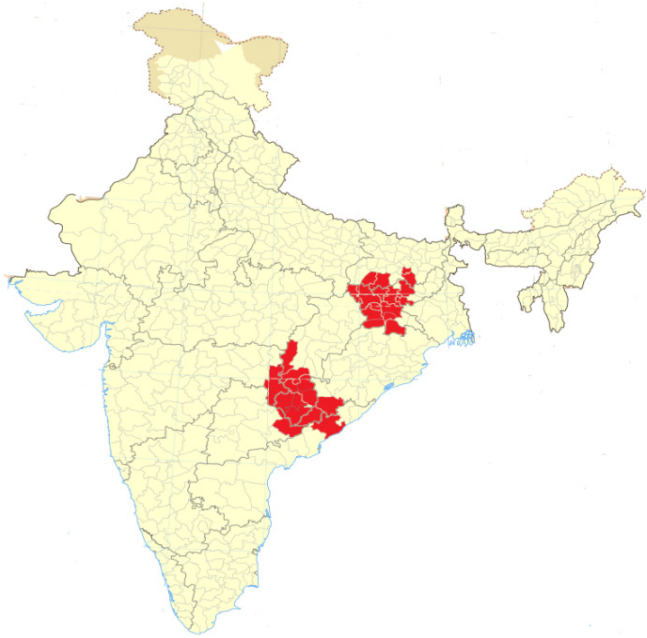

To overcome the difficulties faced in banning the instantaneous detonator, digital detonators, and electronic detonators, which can be geo-fenced or tagged with dynamic locking systems, are the alternatives available. It is heartening to note that concerned ministries have taken note of the gravity of the problem and initiated steps towards phasing out of instantaneous detonators, in a time-bound manner.

Though it may be an onerous task to extend the implementation of a new plan to the entire nation, but a phased approach, with a flagship scheme, targeting the most problematic and vulnerable districts, would certainly help in understanding the viability and impact of the project.

List of the most affected LWE States and Districts:

S No	State	No of Districts	Most affected LWE Districts
01	AP	01	Vishakhapatnam.
02	Bihar	04	Aurangabad, Gaya, Jamui and Lakhisarai.
03	Chhattisgarh	08	Bastar, Bijapur, Dantewada, Kanker, Kondagaon, Narayanpur, Rajnandgaon & Sukma.
04	Jharkhand	13	Bokaro, Chatra, Garhwa, Giridih, Gumla, Hazaribagh, Khunti, Latehar, Lohardaga, Palamu, Ranchi, Simdega and West Singhbhum.
05	Maharashtra	01	Gadchiroli.
06	Odisha	02	Koraput and Malkangiri.
07	Telangana	01	Bhadradri-Kothagudem.
Total Districts		30	

In the first phase, we may consider phasing out electric (instantaneous) detonators in these 30 districts by the enactment of suitable legislation. Though the possibility of smuggling instantaneous detonators from other regions, for use by the ANE, cannot be ruled out, but such a ban would certainly make things relatively difficult for them. However, our long-

term objective should be complete phasing out of electric (instantaneous) detonators and use of delay or digital detonators only all over the country. In case of any roadblocks in the process, intervention of the scientific community can be sought to find ways to overcome them.

The comprehensive approach to tackle the IED menace

In the foregoing paras, a humble attempt has been made to highlight the enormity of the problem and possible solutions. The aspect of controlling the explosive material effectively by stopping pilferage has also been touched upon. However, if the IED menace is to be tackled in a holistic manner, a multi-pronged strategy is considered imperative. With this paradigm, we may consider the following responses:

1. Formulation of National Counter IED Policy.
2. Establishment of a separate Counter IED Cell under the ambit of MHA, to pursue the objectives in a mission mode. Governments of affected states should also set up a special Counter IED teams with robust intelligence network at the grass-root level, to target the network of pilferage, IED makers, and IED planters. These teams should also carry out post-blast/post- recovery investigations to track the source and other connivers.
3. Establishment of fast-track court to try the offences related to Explosive Act to serve

out exemplary punishments with the aim to create deterrence.

4. Conscious steps to create awareness among the end-users and other stakeholders, on the devastating jeopardy, to which the lives of common citizens and security force personnel are put to, because of facilitating/ involvement in pilferage activity, which pays them a pittance.
5. State Governments and DGMS (Director General Mine Safety) should take steps to strengthen the control, security and checks, certification of consumption of explosives and detonators at the end user's point.
6. Reviewing the existing legislation and rules, regulating the manufacture, storage, transportation, use, control, monitoring, etc of explosive materials with an aim to minimize and ultimately eliminate pilferage. We should not shy away from borrowing the best practices adopted by other countries, on this front.
7. A Research and Development Cell, completely dedicated to countering IEDs, preferably under the stewardship of CRPF, being the most afflicted organization, should be established to act as a think tank for making major policy decisions on Counter IED matters. The Cell should meticulously maintain a credible data bank for trend analysis, predictions and proactive measures.
8. Intensive capacity building exercise on counter IED should be undertaken by imparting training to the force personnel to augment their efficiency in dealing with the threat posed by the IEDs in the conflict zones.
9. Introduction of state-of-the-art Counter IED equipment, like metal detectors, scanner, GPR (handheld and vehicle-mounted), etc to augment detection capabilities, especially the buried IEDs from a standoff distance. Extensive use of K9s in the counter IED operations will also go a long way in dealing with the problems.
10. Detonators, for commercial and industrial use, should be mandatorily digital or with delay. To deny the adversaries in their nefarious designs, the instantaneous electric detonators should be gradually done away with.
11. The attention of scientific communities should be drawn towards the existing issues regarding the IED mitigation measures. They should be provided clear insights into the problems faced by the security agencies to enable them to come up with the necessary solutions.
12. Nearby CAPF/Police forces should be involved in the process of bringing in stricter control and transparency.

Conclusion

Industries are the important drivers for the growth of the economy of a country. Annually, 13.75 lakh MT of Class-2 (Cartridge and SME Explosives), 5.44 lakh MT of Class-2 Cartridge explosives, and 1066 million of detonators are manufactured in the country. Out of these, 46 % are consumed by Coal India Ltd, and its subsidiaries, 24% by Mining industries and 24% for infrastructural activities (construction, oil exploration, stone quarrying, etc). Rest, 6% are exported.

Regulating the distribution, storage and use of such a mammoth quantity of explosive materials and ensuring that, no illegal siphoning off takes place, is a herculean task. Overly stringent measures may become impediments to commercial activities and may not be welcomed by many. However, the loopholes in the existing system are tactfully exploited by the adversaries and the toll taken by it in terms of massive loss of precious lives and destruction of properties is ineffable. Hence, a trade-off is suggested as adversaries across the country prefer asymmetric warfare and IEDs continue to be their weapon of choice due to easy availability of components, low cost, ease of fabrication and inflicting mass casualty. Considering the gravity of the problem, a concerted effort by all the stakeholders including MHA, Ministry of Commerce and Industry, DPIIT and PESO, CAPFs, DGMS, NIA, IB, DRDO, State Police, District Administrations, Explosive Manufacturers, End users, Supply Chain Elements, NGOs and concerned citizens, etc is the need of the hour. Right steps, in the right direction, at the right times by the right agencies, will go a long way in defeating the menace and safeguarding the security interests of the country. Jai Hind !!!

Harbinger of Peace – RAF

Rakesh Kumar Singh
Commandant, 194 Bn

Intersectionality of diversity and discontent has always been a big challenge for social democracy. The ever-increasing divisive forces and exposition has created a culture of protests and agitations. The impatience of people in general has necessitated that the agencies cater to the instant demands immediately or face the consequences. The public probity demands that decisions be taken after due deliberations involving all stakeholders. And thus, any intermittent delay results in major public order problems.

The emerging contours of internal security clearly indicates that tackling these conflicts will be a greater challenge in coming years. The governments will need to ensure peace instantly so that economic activities are not hampered. Some of these challenges are fueled by inimical forces outside the country as well as within too. Funded liberally by the anti-social elements as well. To tackle such trust deficit and disgruntlement Rapid Action Force (RAF) was brought into existence by the central government. It was carved out within CRPF to be a specialized force to deal with such critical issues of changing paradigm of public order. Distinct in their blue dungarees, the men and women of the RAF are trained professionals who understand mob psychology and are aware of the ethos and culture of the area.

The need to understand the challenges of social democracy, why riots happen, identifying the cause-effect relationship and bringing in evidence-based approach and action plans has never been felt as much.

A neutral and professional Force specialized in its task, which reaches at the site of crisis in a 'moment's time'. With the motto 'to serve humanity with sensitive policing' RAF responds to the vulnerable sections of the society promptly and provides succour to the victims.

The necessity of such a specialized force to deal with such situations was a calling felt because CRPF was already burdened with and committed towards multifarious duties pertaining to Internal Security and Counter-Insurgency operations. The Government needed a force that could intervene in such law and order situations with special expertise, appropriate behavioural traits, attitudinal orientation and above all, literally responding in 'Zero response time' so that the situation is brought under control before it goes out of hand. For this reason, the RAF keep its units in constant readiness, 24X7.

The distinct and sensitive nature of anti-communal riots and crowd control duties, necessitates the use of non-lethal equipment. It also needs a different mind-set to deal with such situations. This duty is very different from the other armed Forces, which are trained to deal with insurgency and militancy. The personnel are, therefore, put through special pre-induction training. Communal clashes, student riots, farmers riots, etc. can no longer be quelled by lathis and weapons, but they call for psychological handling. It is more a mind game than a game of brute force.

RAF often also adorns the role of effective immediate responders when dealing with rescue and relief operations during natural calamities and man-made disasters. It's Units by virtue of their disposition in urban centers also plays the role of first responders before arrival of other forces in the event of terrorist attacks.

Public awareness campaigns are held showcasing the fault lines and generating a community-based, community-led, community-owned policing system. As a torch bearer in such a system, RAF, by the very nature of it's ethos adopts legally correct methods in its handling and follows evidence-based policing.

For strengthening the social security eco-system, citizen is not only a stakeholder, but also duty bound to maintain order. Imagine a situation where a few persons clash and then the rioters involve in burning buses and public property, where the civilians are just by-standers as they think it is the job of only the police or RAF to deal with them. If the citizens are empowered and are oriented to be dutybound, their indulgence in such matters, the public pressure, the peer pressure etc. will act as a force multiplier in preventing such losses. RAF in its charter of duties believes in educating people to be a harbinger of peace.

With growing complexities of public order in future, RAF is expected to play an even large role of a stabilising neutral police force in various kind of law and order situations. It will have to dwell not only on what it possesses at present, but, also embark on constant review and upgradation of its capabilities. The challenges that lie ahead are to be taken as opportunities to further model the RAF as a principal force to maintain public order in the country. It has already commenced its march in this direction.

तनाव का व्यापार

रवि शंकर मिश्रा
द्वितीय कमान अधिकारी
केन्द्रीय रिर्जव पुलिस बल

इस भागती-दौड़ती भौतिकतावादी दुनिया में एक शब्द ऐसा है जो आज की तिथि में लगभग हर व्यक्ति के शब्दकोष में है, वह है तनाव। यह एक ऐसे राक्षस की तरह है जो सम्पूर्ण मानव जाति को निगलने के लिए तैयार है। रावण भी एक राक्षस माना जाता है, जिसमें बहुत सी कमियाँ थी, जिनका चारों ओर प्रचार किया गया, परन्तु वहीं दूसरी ओर उसी रावण में बहुत सारी अच्छाइयाँ भी थी। वह प्रकांड विद्वान था, जिसकी चर्चा हमेशा गौण रही। कुछ हद तक यही हालत तनाव रूपी राक्षसी शब्द का भी है। इस व्यावसायिक बाजार में तनाव का नकारात्मक प्रचार एक प्रकार से मुनाफे का कारोबार बन गया है। जिसके कारण बहुत सारे लोगों की सम्पति को चार चाँद लग रहे हैं। फिर चाहे वह चिकित्सा जगत हो, शिक्षा जगत हो, धर्म प्रचारक बाबा अथवा उपदेशक हों।

हम अपने बचपन को याद करते हैं कि कई बार हमारी बिना किसी गलती के भी हमारे अभिभावक हमें डांटते थे और वो भी बिना तनाव के, और हम भी तनाव रहित होकर डांट सह लेते थे, एवं कोई तनावग्रस्त नहीं होता था। पर आज के युग में हम अपने बच्चों की गलती पर भी डांटने से पहले स्वयं ही तनाव में आ जाते हैं कि पता नहीं हमारे डांटने से बच्चा कितने तनाव में आ जाएगा, कहीं वह कोई गलत कदम न उठा ले। कमोबेस यही स्थिति बच्चों की भी होती है, अभिभावक का एक भी कठोर शब्द वो सहन नहीं कर पाते हैं, और यही तनाव का व्यापार है। आज हम किसी अन्य समस्या से उतने तनाव में नहीं आते जितने तनाव के आने से तनावग्रस्त हो जाते हैं। क्योंकि हमें सदा इसका नकारात्मक प्रभाव ही बताया गया है, कभी इसका सकारात्मक पक्ष हमें नहीं बताया जाता है, क्योंकि सकारात्मक पक्ष जगजाहिर करना व्यावसायिक जगत के अनुकूल नहीं है।

कहा जाता है कि आवश्यकता ही आविष्कार की जननी है। हमारे आदिमानव को जब वर्षा ने भिगोया तो वे तनाव में आये, एवं तब उन्हें सर छुपाने के लिये आश्रय की आवश्यकता जान पड़ी, तो इस प्रकार तनाव के कारण ही आज का मानव कंदराओं से होता हुआ गगनचुंबी इमारतों तक आ पहुँचा। राइट बंधु उड़ती चिड़िया को देखकर तनाव में आए तो ही आज हम हवाई सफर का आनन्द उठा पा रहे हैं।

इस सबको देखते हुए हम तनाव को कुछ इस तरह परिभाषित कर सकते हैं: ''मनुष्य के शरीर के अंदर या बाह्य वातावरण में हुए परिवर्तन से इसकी मानसिक दशा में जो बदलाव आता है, एवं जिससे उसकी कार्य क्षमता प्रभावित होती हो, वह प्रक्रिया तनाव कहलाती है।''

इस आधार पर तनाव को दो भागों में बाँटा जा सकता है:

(1) सकारात्मक तनाव

(2) नकारात्मक तनाव

(1) सकारात्मक तनाव:- सकारात्मक तनाव या धनात्मक तनाव वह मानसिक बदलाव है जिससे व्यक्ति की कार्य करने की क्षमता बढ़ जाती है। परीक्षा के समय बच्चे के पढ़ने की क्षमता अचानक बढ़ जाती है। यह परीक्षा रूपी तनाव ही है जो बच्चे की कार्यक्षमता को बढ़ाता है। यह सकारात्मक तनाव है। कार्यालय में शीर्ष अधिकारी के निरीक्षण के समय सभी कर्मियों की कार्यक्षमता बढ़ जाती है। यह धनात्मक तनाव है।

(2) नकारात्मक तनाव:- नकारात्मक तनाव मानसिक बदलाव की वह अवस्था होती है जिसके फलस्वरूप व्यक्ति की कार्यक्षमता पर प्रतिकूल प्रभाव पड़ता है और काम करने की क्षमता घट जाती है। एक बीमार व्यक्ति की कार्यक्षमता सामान्य कार्य दिवसों की अपेक्षा कम होती है। उस व्यक्ति के अंदर के हुए बदलाव के कारण उसकी कार्यक्षमता घट गयी, जो कि नकारात्मक तनाव है। किसी कार्यालय के एक कर्मचारी को लगातार डांट पड़ने पर उसकी कार्यक्षमता सामान्य से भी कम हो जाती है, यह भी नकारात्मक तनाव है।

इस पूरे तनाव को एक ग्राफ के माध्यम से समझा जा सकता है:

ग्राफ के जरिये हम यह समझ सकते हैं कि एक बिन्दु तक तनाव के बढ़ने से कार्यक्षमता भी बढ़ रही है, परन्तु उस बिन्दु के बाद यदि किसी व्यक्ति को और तनाव दिया जाता है तो उसकी कार्यक्षमता निरंतर घटती चली जाती है। उस शीर्ष बिन्दु को अनुकूलतम तनाव की संज्ञा दी जा सकती है। यह प्रत्येक व्यक्ति के लिये प्रत्येक परिस्थिति में भिन्न-भिन्न होता है।

परंतु किसी भी मानव की कार्यक्षमता न तो शून्य होती है, न ही उसका तनाव ही शून्य होता है। मौत के पश्चात ही यह दोनों शून्य होते हैं। हम सिर्फ कुछ बदलाव कर अनुकूलतम तनाव के स्तर को बढ़ा कर व्यक्ति की कार्यक्षमता बढ़ा सकते हैं। एक अच्छे अभिभावक, प्रशिक्षक तथा टीम मैनेजर के स्तर पर हम व्यक्ति के अनुकूलतम तनाव स्तर को बढ़ा सकते हैं। लक्ष्य निर्धारण करने से तनाव होता है, तथा लक्ष्य की प्राप्ति से हमारा तनाव खत्म होता है। परन्तु एक लक्ष्य प्राप्ति के तुरन्त बाद ही मानव अगला लक्ष्य निर्धारित कर लेता है, यही व्यक्ति का

विकार है। अत: अनुकूलतम दबाव के स्तर को बढ़ाकर ही हम व्यक्ति की कार्यक्षमता को बढ़ा सकते हैं।

कुछ बातें जिन्हें ध्यान में रखकर हम व्यक्ति की कार्यक्षमता बढ़ा सकते हैं, निम्नलिखित हैं:

(1) **स्वास्थ्य:** व्यक्ति की कार्यक्षमता उस व्यक्ति के स्वास्थ्य पर निर्भर करती है। ऐसा कहा भी गया है कि स्वस्थ शरीर में ही स्वस्थ मन का निवास होता है। अत: हमें अपने खान-पान पर विशेष ध्यान देना चाहिए। पौष्टिक तथा समय पर किया जाने वाला भोजन हमें स्वस्थ रखता है। इसके साथ ही,भोजन के साथ-साथ व्यायाम, योग, खेलकूद आदि भी स्वास्थ्य के लिये आवश्यक हैं। अत: हमें इन्हें भी अपने दैनिक जीवन में शामिल करना चाहिए।

(2) **शिक्षा:** शिक्षा सफलता के द्वार खोलती है, फिर चाहे वह शिक्षा व्यावहारिक हो अथवा व्यावसायिक। हम जिस क्षेत्र में कार्य करते हैं उस क्षेत्र की गहन जानकारी हमें वहां वांछित सफलता देती है। शिक्षा हमें उस क्षेत्र की कठिनाइयों से अवगत कराती है, एवं उसके लिए हमें पहले से ही तैयार करती है, जिससे हमारी दबाव सहने की क्षमता बढ़ जाती है।

(3) **रुचि पैदा करना:** हमें यह जान लेना आवश्यक है कि मनुष्य एक मशीन नहीं है। अत: प्रत्येक मनुष्य को अपने कार्य के अलावा एक रुचि भी रखनी चाहिए। खाली समय में हमें अपनी रुचि पर ध्यान देना चाहिए जो हमारे मानसिक तनाव को दूर करती है। इच्छा के विरूद्ध 100 मीटर की दौड़ भी तनाव पैदा कर देती है, वहीं फुटबाल के मैदान में एक दो घंटे तक दौड़ने से भी खिलाड़ी थकता नहीं है, क्योंकि यह उसकी रुचि है। रुचि पढ़ना, लिखना, गाना सुनना, समाज सेवा करना आदि कुछ भी हो सकती है।

(4) **लक्ष्य निर्धारित करना:** हमें अपना लक्ष्य बड़ा रखना चाहिए। लक्ष्य निर्धारित करने के साथ ही तनाव प्रारंभ होता है, वहीं लक्ष्य प्राप्ति से तनाव दूर होता है। इसे छोटी-छोटी इकाईयों में बाँट कर छोटे-छोटे लक्ष्यों को प्राप्त कर बड़े लक्ष्य को प्राप्त करना आसान हो जाता है, जैसे एक-एक सीढ़ी चढ़ते-चढ़ते छत पर पहुँचना।

(5) **कार्य स्थल का वातावरण अच्छा रखना:** यदि हमारे कार्यस्थल चाहे वह घर, स्कूल, कार्यालय आदि कुछ भी हो, का वातावरण सकारात्मक हो, तथा सभी कर्मियों के बीच अच्छे संबंध हों, अभिभावक-संतान, शिक्षक-शिष्य, अधिकारी-कार्मिक के बीच यदि संबंध सौहार्दपूर्ण हों तो निश्चित रूप से कार्यक्षमता भी बढ़ती है, और परस्पर सहयोग करने से लक्ष्य भी सुगमता से प्राप्त किया जा सकता है।

(6) **खाली बैठने से बचना:** कहा जाता है कि खाली दिमाग शैतान का घर होता है। यदि हम घर में खाली बैठते हैं तो इससे नकारात्मक सोच को बढ़ावा मिलता है। उदाहरण के लिए, सड़क किनारे पत्थर तोड़ता एक मजदूर कम तनाव में रहता है, जबकि संभ्रांत घर का एक पढ़ा-लिखा व्यक्ति यदि खाली बैठा हो तो वह तुलनात्मक रूप से अधिक तनावग्रस्त रहता है। अत: इससे बेहतर यह है कि हम अपनी रुचि में व्यस्त हो जाएँ एवं स्वयं को व्यस्त रखने की कोशिश करें।

हमे यह समझना होगा की तनाव हमारे जीवन का अभिन्न अंग बन गया है।

हम इससे दूर भाग नहीं सकते हैं वरन हमें इससे लड़ना होगा।

Ten Years Down the Line
Naxal Problems in Chhattisgarh

Manoranjan Kumar
2I/C, 194 Bn, CRPF

Naxalism as an ideology over last five years have lost its grip on the local populace due to several reasons in Chhatisgarh and particularly in South Bastar. It is pertinent to mention that South bastar includes Sukma, Bijapur and Dantewada.

The various reasons attributed to the decay of red terror and their strong organisations are as follows:-

1. Trust, governance and development deficit have been addressed to a large extant.
2. Policy of clearing, holding and building is religiously followed, which includes venturing in deep by security forces, opening of new camps and development of the area by different government agencies. Building of roads to the remote parts has played a crucial role.
3. Exposure of developmental projects to the people of the region.
4. Laying of electricity lines in many pockets.
5. Disenchantment of local youths from Naxalism.

Once spread over in more than 20 states, red menace has now been restricted to 90 districts of 11 states. Of these, 30 districts in 5 states have witnessed maximum violence. The downward trend in LWE violence graph has been noticed in past few years. 19 percent decline in naxal incidents has been recorded in the year 2019 as compared to 2018.

In 2019 overall naxal incidents were 670 as compared to 833 in 2018 across the country. Chhattisgarh reported 263 naxal incidents in 2019 as compared to 392 in 2018. Though Chhattisgarh continues to be worst affected state with maximum number of incidents, a steep decline is noticed.

The strong citadels of Naxals have been tottering in Balrampur, Jaspur, Dhamtari, Gariyaband, kanker, and Kondagaon districts. The naxals are trying hard to save their organisation. Moreover the security forces have put a big dent on hitherto the strongest citadels of Sukma, Bijapur, Dantewada and Narayanpur.

The concrete road has been laid from Gorgonda to Burkapal in South Sukma which has seen immense blood bath. Many gallant personnel had paid heavy price for it by giving supreme sacrifice to the nation. Who can forget the incident of Tadmetla and Burkapal. Building of this road has eased the pressure on the movement of security forces. In a year or so this road will be extended up to Jagargunda and hopefully connected with Kondasawli camp in Dantewada district.

In the days to come new forces' camp have been planned to be established on following axes:-

1. Chintagufa – Bheji
2. Jagargunda – Tarem
3. Pamed – Usoor
4. Kistaram – Chintalnar
5. Gangaloor – Mirtoor

MHA has marked 7 CRPF battalions for these axes. In addition teams of CoBRA, DRG and STF will be also placed along.

The way the top naxal commanders have been neutralised in last three years by security forces, it seems the intelligence system have been strengthened by making inroads to the core area. Moreover many commanders and ground cadres have either surrendered or apprehended due to insurmountable pressure of security forces.

New recruitment has gone down to a new low in past three years. Only those pockets have witnessed recruitment which is very remote and not developed so far. Development has kindled a ray of hope among youths in the region.

The revenue of naxals come through Tendu leaves, mining, PWD, extortion, confiscation of

wealth and many other sources whose details are as follows:-

50 % from Tendu leaves
15 % from mining
9 % from PWD
7 % from extortion
8 % from confiscation of wealth & income
11 % from other sources.

The kitty of revenue has depleted over the period due to vigilant policing through intelligence network and operations. Many of prominent naxals who were instrumental in generating revenue have been arrested or forced to surrender.

Due to ageing leadership, death of leaders like Ramanna and surrender of leaders like Gudsa Usendi the naxal organisation has a vacuum of middle and top leadership. It has created a crisis in once upon mighty organisation which appears to be a big chink on the armour.

Problems of co-ordination and co-operation are perceptible due to absence of strong links in form of telgu leaders, many of whom are either arrested/surrendered or killed. The issue of leadership has also aggravated the problems of Naxals. The top commanders or leaders are from Telangana or Andhra Pradesh and most of them are in their late 50s and 60s. Many of these leaders or commanders are suffering with multiple morbidities due to which they are not able to execute operation on the ground.

Of late CPI(Maoists) have lost its key man, strategist and ground commander Ramanna in special operational zone due to illness. This man happened to be the secretary DKSZC before his death and was the main mover of the bloody naxal movement in South Bastar. His death has broken the back of the naxal movement in South Bastar.

Tribal Naxal commanders on the ground have also an aspiration to be part of key affairs of the organization. Over the period the tribal ground commanders have been exposed to the governance and this is the very reason as to why they have strong desire to be the part of the core group. It is imperative to mention that the tribal commanders though good on ground have little links in the outer world for the logistic and other supports.

Hidma, the commander of first battalion PLGA hogged limelight in Tadmetla incident in 2010. He raised his stature after executing the Bheji and Burkapal incidents in 2017. It forced the top naxal leaders to take him in Top committee of CPI (Maoists). This may open the eyes of others from tribal group and encourage them to be part of the bigger league. This can generate crisis of power struggle if their wanting goes unfulfilled. The inner conflict may lead to fissure in the organisation.

Cracks produced through differences of haves and have nots will lead to formation of small splinter groups which will vie for dominance. Internecine war will start among these groups thus. Groups like TSPC, PLFI, JJMP and CPI(ND) of Jharkhand will be born in Chhatisgarh. Such groups will not be governed as strictly by strong principles as CPI(Maoists) is. Most of these will slip into extortion business to survive and cater their needs. Inner fighting and self interest of these factions will doom the naxal movement in Chhatisgarh.

Though new area like MMCTZZC have been established but quick response by security forces have put a big dent on the newly formed committee. Due to force multipliers like Heron, other UAVs, human intelligence, heli born operation, use of modern gadgets etc., the naxal dominated fringe area will slip out of their hands.

Support group of naxals CNM and others will lose their mass appeal due to fast developmental work in the area. The support of local masses will wither away due to their disenchantment from the leadership. Naxal's violence will come to very low and if CPI (Maoists) does not join mainstream after giving up weapons like CPI(ML) will cease to exist. It will be dismantled into petty extortionist groups which can be easily strangled by security forces.

Virtual Training at RTC Rajgir

Firoz Ali, Dy. Comdt.
(RTC, Rajgir)

In the present scenario of COVID-19, when none of the nation could avoid this disease, a great halt on this planet was observed. The entire working got stopped. Our country faced no different situation. The front liners like our force, CRPF had a great role to play. The pandemic disrupted the normal lifestyle of people across the globe and the virtual world came to the rescue.

RTC Rajgir had organised an online training programme too. Our motto says 'SERVICE AND LOYALTY' so we will never stop to serve and train new jawans. Efforts were made by this institution to ensure a smooth transition to the virtual world. The roar of the infectious virus has stopped face to face classes. So RTC Rajgir is conducting an HCPC Course which is based on 2 phases i.e., HCPC SL. No. 29 Phase-1 w.e.f 14/09/2020 to 10/11/2020 & HCPC SL. No. 29 Phase- 2 w.e.f 16/11/2020 to 12/01/2021.

RTC Rajgir is playing the role of nodal TTH. The rest of TTH are ZTC Musabani, GC Ranchi, GC Bhubneshwar, ANTS Salboni, ANTS Koraput. Further details of all TTHs are as under:

Sl.No.	Name of TTH	Allotted	Reported	present
01	ANTS Salboni	31	27	27
02	ANTS Koraput	60	49	49
03	GC Ranchi	60	57	56
04	GC Bhuwaneshwar	150	149	148
05	ZTC Musabani	200	173	149
06	RTC Rajgir	100	90	90
Total		601	545	519

RTC Rajgir is conducting indoor classes on online platform in these TTHs. Such type of practices will be continued till the pandemic gets over.

Virtual classes have led to many benefits, for example we got to know and discovered good and talented speakers. Moreover the organising cost of the course was far lesser in comparison to the time when physical attendance was required. This was due to the absence of journey fare etc. Our Jawan will get timely promotion and it showed our passion that amidst all the hurdles in COVID-19 we can achieve our goals & CRPF is ready to move ahead in any hour of crisis or any calamity.

Opening address by Brig. K. Birendra Singh, Principal RTC, Rajgir

"गाँधी जी का जीवन दर्शन"
Gandhian Philosophy

गाँधी जी के विराट व्यक्तित्व को रेखांकित करने का कार्य दुष्कर तो है परंतु उनके संपूर्ण व्यक्तित्व को नई पीढ़ी के लिए गाँधी दर्शन के सहज रूप में उपलब्ध करने का मेरा प्रयास है। आशा है, यह निबंध गाँधी युग, गाँधी जी के व्यक्तित्व, गाँधी जी के सिद्धान्त एवं उनके दर्शन शास्त्र को समझने में सहायक होगा।

गाँधी जी के जीवन दर्शन शास्त्र, उनके जीवन के अनेकानेक प्रसंगों के बिना अपूर्ण है। गाँधी जी विश्व के ऐसे महान मार्गदर्शक प्रेरणा पुरुष और अग्रणी व्यक्तित्व रहे हैं जो हर प्रकार की तुलना से ऊपर हैं। उनके सत्य, अहिंसा जैसे सिद्धांत सदैव ही मनुष्यता को मार्ग दिखाते रहेंगे। गाँधी जी एक बेमिसाल व्यक्तित्व हैं, जो आज भी करोड़ों देशवासियों के लिए ही नहीं वरन् विदेशी जन के लिए भी प्रेरणापुंज के तौर पर मार्गदर्शन का कार्य कर रहे हैं।

हमारा देश जो अंग्रेजों की दासता के बंधनों में जकड़ा हुआ था, को ऐसे समय में अहिंसा के बल पर, सत्याग्रह के अनूठे सिद्धांत को अपनाकर हमारे देश को बन्धन-मुक्त कराने का कार्य, गाँधी दर्शन की एक महत्वपूर्ण कड़ी है। किशोरावस्था में गाँधी जी विद्रोही दौर से गुजरे। इस दौरान उन्होंने छोटी-मोटी चोरियाँ, छिपकर धूम्रपान और माँस खाना आदि किया। किन्तु आत्मग्लानि के कारण उन्होंने अपनी हर गलती के बाद पश्चाताप किया और उस भूल को न दोहराने का निश्चय किया। यह गाँधी जी के जीवन दर्शन का महत्वपूर्ण सूत्र था। तेरह वर्ष की आयु में उनका विवाह हमउम्र कस्तूरबाई (कस्तूरबा) से हुआ। हालांकि कस्तूरबा को उन्होंने एक आदर्श पत्नी व सच्चे मित्र की तरह पाया परंतु फिर भी बाल विवाह को लेकर उनकी अंतरात्मा दुखी रहती थी। उनका मानना था कि बाल विवाह जैसी प्रथा के कारण शारीरिक व मानसिक दोनो रूपों से नस्लें कमजोर हो जाती हैं।

इंग्लैंड जाकर वकालत करते समय भी गाँधी जी तीन-चार महीने फैशन की चकाचौंध में भटक गये थे परंतु शीघ्र ही उन्होंने निश्चय किया कि वे अपने जीवन में तड़क-भड़क को स्थान न देकर अपने चारित्रिक गुणों का विकास करेंगे। यही जीवन दर्शन शास्त्र उनकी जीवन शैली को स्पष्ट प्रकट करता है। वे इस महावाक्य पर अंत समय तक अडिग रहे कि "उच्च चरित्र ही व्यक्ति को एक जेंटलमैन बना सकता है।"

दक्षिण अफ्रीका में वहां की सरकार एशियाइयों के प्रति गोरों की विद्वेष भावना को बढ़ावा देती थी। भारतीयों पर वहां कई तरह के प्रतिबंध लगे हुए थे। उनको प्रथम श्रेणी में यात्रा करना मना था। सड़कों पर एक ओर पटरी पर चलना पड़ता था। पगड़ी पहनना मना था व अपमान सहना एक आम बात थी। अदालतों में भी भेदभाव पूर्ण व्यवहार होता था। अदालत में गोरे जज ने उनके सर पर गुजराती पगड़ी देख कर पगड़ी उतारने की आज्ञा दी परंतु गाँधी जी ने पगड़ी नहीं उतारी और विरोध स्वरूप अदालत से बाहर आ गए। यह उनकी दृढ़ इच्छा शक्ति को प्रदर्शित करता है।

मनोज भम्भानी
210 कोबरा बटालियन

प्रीटोरिया सफर करते समय प्रथम श्रेणी का टिकट होने के बावजूद उन्हें रंग भेद के कारण सर्दी में स्टेशन पर उतार दिया गया। जोहान्सबर्ग में भी सफर के दौरान उन्हें रंग भेद के कारण घृणा एवं अपमान सहना पड़ा व बग्घी का प्रथम श्रेणी का टिकट होने के बाद भी कोचवान के साथ बिठाया गया। इतना सब अपमान सहने के बाद भी गाँधी जी अपने निर्णय पर अडिग रहे। प्रीटोरिया में धीरे-धीरे उनके विचार धारा के कारण मित्रता का दायरा बढ़ता गया व लोग उनके प्रशंसक हो गए। कर्तव्यों के प्रति परायणता उनके जीवन दर्शन शास्त्र का आयाम है।

गाँधी जी दक्षिण अफ्रीका "दादा अब्दुल्ला एंड कंपनी" के बुलावे पर गए थे जहां सेठ अब्दुल्ला व उनके रिश्तेदार तैय्यब जी के बीच मुकदमा चल रहा था। गहराई से अध्ययन के पश्चात् गाँधी जी ने पाया कि इस विवाद से वकीलों की चाँदी हो रही है व वकीलों का घर भर रहा है। अत: गाँधी जी ने दोनों को समझाया कि वे नाहक ही अपनी कमाई से वकीलों का घर न भरें और आपस में समझौता कर लें। दोनो के सामने गाँधी जी ने कुछ ऐसे तर्क प्रस्तुत किए जिससे बात दोनो के समझ में आ गई और दोनो ने न्यायालय में जाकर समझौता कर लिया। यहां गाँधी जी की सूझ-बूझ उनके दर्शन शास्त्र का उदाहरण है जबकि वे स्वयं वकील थे और उन्होंने व्यक्तिगत लाभ की भावना को दरकिनार करके बुद्धिमत्ता का परिचय दिया।

दक्षिण अफ्रीका में गाँधी जी ने न्यायालय से वकालत करने का लाइसेंस लेने का प्रयास किया तो उन्हें काफी परेशान किया गया। पहले उनसे कहा गया कि वे अंग्रेजो से अपने चरित्र का प्रमाण-पत्र लाएँ। जब गाँधी जी ने यह प्रमाण-पत्र हासिल कर लिया तब उनसे कहा गया कि अंग्रेज उन्हें क्या जानें, ऐसे प्रमाण-पत्र उन्हें प्रतिष्ठित भारतीयों से लाने चाहिए। गाँधी जी ने भारतीयों से प्रमाण-पत्र जुटाए तब जाकर उन्हें वकालत का लाइसेंस मिला। उन्होंने सिद्ध कर दिया कि वे हिम्मत हारने वालों में से नहीं हैं। उनमें सहनशीलता, सन्तोष और दृढ़ता के साथ परिश्रम करने की भावना थी जो उनके जीवन दर्शन का प्रमुख गुणधर्म है।

नवंबर 1896 में जब भारत से दुबारा गाँधी जी डरबन गए तब वहाँ के गोरे लोगों ने नेटाल में उनसे अभद्र व्यवहार किया। उन पर सड़े अंडे और कंकड़ पत्थर की बौछार की गई। भीड़ ने उन्हें लात-घूसों से पीटा। इस घटना में जिम्मेदार लोगों के विरुद्ध कार्रवाई करने हेतु लंदन के उपनिवेश मंत्री ने नेटाल सरकार को तार भेजा। परंतु गाँधी जी ने आरोपियों को पहचानने से इंकार करते हुए उनके विरुद्ध कोई भी कार्रवाई न करने का अनुरोध किया। गाँधी जी ने कहा "वे गुमराह किए गए हैं, जब उन्हें सच्चाई का पता चलेगा तब उन्हें अपने किये का खुद दुख होगा। मैं उन्हें क्षमा करता हूँ।" क्षमा पूर्ण इन वाक्यों से उनकी जीवन शैली का दर्शन शास्त्र दृष्टिगोचर है।

भारत में "सत्याग्रह आश्रम" की स्थापना कर उन्होंने अपने स्वयं सेवको को सत्य, प्रेम, अहिंसा, अपरिग्रह और अस्तेय के मार्ग पर चलने का संकल्प दिया। उनका मानना था कि स्वराज पाने कि लिए सत्याग्रहियों को किसी भी प्रकार की हिंसा का प्रयोग करने की इजाजत नहीं है। उन्होंने आंदोलनकारी सत्याग्रहियों को पूर्ण रूप से अपने पर विश्वास रखना और अपने मत को दृढ़ता की ज्योति से प्रकाशित करना, प्रेम की शक्ति पर भरोसा रखना सिखाया। इसके साथ ही प्रसन्नता व खुशी से अपने दुखों को सहन करने तथा बलिदान करने की शिक्षा दी। उनका मानना था प्रेम की आंच में तो कठोर से कठोर पत्थर को पिघलाने की ताकत होती है। यदि ऐसा नहीं होता है तो उस प्रेम की अग्नि में तेज शक्ति की कमी है। वे एक वर्ष तक मौन व्रत में रहे। यही दर्शन शास्त्र गाँधी जी का जीवन दर्शन है।

सत्याग्रह आंदोलन, दांडी यात्रा, अंग्रेजों भारत छोड़ो आंदोलन इत्यादि को उन्होंने अपने प्रेम, सत्य, अहिंसा के सिद्धांतो पर सफल बनाया। गाँधी जी ने जो देश को प्रकाश दिया वह कोई सामान्य व्यक्ति नहीं दे सकता। वह जीवन जीने का मन्त्र देने वाली ज्योति थी। उस रोशनी ने देश के ही नहीं बल्कि विश्व के कोने-कोने में उजाला फैलाया। उनके सत्य, प्रेम, अहिंसा के सिद्धान्त हमेशा इस देश के लोगों को दर्शन शास्त्र के रूप में रोशनी देते रहेंगे।

गाँधी जी ने संपूर्ण विश्व को यह दिखला दिया कि प्रेम, सत्य और अहिंसा का मार्ग ही श्रेष्ठ मार्ग है। इसी का प्रयोग करके उन्होंने देश को आजादी दिलाई। समाज के गरीब असहाय और अछूतों के उद्धार के लिए किए गए उनके कार्यो को भी भुलाया नहीं जा सकता। स्वराज, सत्याग्रह, प्रार्थना, सत्य, प्रेम, अहिंसा, स्वतंत्रता के संबंध में उनके सिद्धान्त बड़े बेशकीमती रत्न हैं। गाँधी जी का जीवन लोगों के लिए था। वे बुद्धिमान, संवेदनशील, ईमानदार, कर्तव्यनिष्ठ, सिद्धान्तवादी थे। वे भारत के सुंदर शिल्पकार थे। उन्होंने यह सिद्ध कर दिखाया कि दृढ़ निश्चय, सच्ची लगन एवं अथक प्रयास से असम्भव को भी सम्भव बनाया जा सकता है। गाँधी जी विश्व के महान मार्गदर्शक प्रेरणा पुरुष और अग्रणी व्यक्तित्व रहे हैं । ऐसे महापुरुष बार-बार जन्म नहीं लेते। मोहन दास करम चंद गाँधी के विचारों और उनके जीवन के दर्शन शास्त्र पर चलकर देश की वर्तमान और भविष्य की पीढ़ी सुनहरे भारत का सुनहरा इतिहास लिख सकती है।

"हे बापू तुम्हें नमन।"

Digital Signature: Overview

Why print, sign and scan when you can digitally sign?"

Digital Signature: India is a country that has manoeuvred its way through tough times and hurdles; sometimes slowly, often rapidly, but always moving forward. With a view to provide legal recognition to ecommerce and e-transactions, facilitate e-governance and prevent computer-based crimes, Government of India enacted Information Technology Act, 2000. Today Digital Signature is one of the most important and widely used cryptographic tools to authentic the digital data in the web based environment.

Overview

Generally, we all have seen handwritten signatures on official letters or messages. These signatures are normally used to bind signatory to the letter or message.The authenticity of many legal, financial, and other documents is determined by the presence or absence of an authorized signature. Similarly, a digital signature is a technique that binds a person/ entity to the digital data. As per provisions of IT Act, 2000 and its amendment Act, 2008, the digital signatures are now accepted at par with handwritten signatures and are more secure.

Why Digital Signature?

Digital signatures are used to detect unauthorized modifications to data (i.e. to detect the integrity of the signed data) and to authenticate the identity of the signatory. In addition, the recipient of signed data can use a digital signature as evidence in demonstrating to a third party that the signature was, in fact, generated by the claimed signatory. This is known as non-repudiation. In short, we can say that digital signatures are used to provide Authenticity, Integrity and Non-repudiation to electronic documents and use Internet as the safe and secure medium for eCommerce and e-Governance.

What is Digital Signature?

Digital signature is a mathematical technique used to validate the authenticity and integrity of a digital document, message or software. A digital signature is represented in a computer as a string of bits.

Jitesh Kumar
CTC (T & IT)

For creating digital signatures, the signer is required to obtain a Digital Signature Certificate from a Certifying Authority (CA) licensed by the Controller of Certifying Authorities (CCA) under the Information Technology (IT) Act, 2000. The private key used for creating the signature is stored in cryptographic hardware token. As the public key of the signer is known, anybody can verify the message and the digital signature. Digital Signature of a person, therefore, varies from document to document thus ensuring authenticity of each word of that document. Digital signatures use a standard, called Public Key Infrastructure (PKI), to provide the highest levels of security and universal acceptance. Digital signatures are document content dependent and changes with content of the message.

How Digital Signatures work?

Digital signature is an important application of Public key cryptography. Using a public key algorithm, such as RSA, one can generate two keys (i.e. Public and Private Keys) that are mathematically related. The key pair owner is the only entity that is authorized to use the private key to generate a digital signature. In signature generation process, the private key of the signer is used to generate a digital signature. The public key of the signer is used in the signature verification process. Anyone having public key of the signer can verify a digitally signed message. The security of a digital signature system is fully dependent upon the maintenance of secrecy of signatory's private keys.

Creation of Digital Signature

An appropriate approved cryptographic hash function is used in the signature generation process to obtain a condensed version (i.e. digest) of the data to be signed. The condensed version of the data is often called a message digest or hash. The message digest or hash is input to the digital signature algorithm to generate the digital signature. The private key of signer is then used to encrypt the message digest or hash. Hash value of a message when encrypted with the private key of a person is his digital signature on that e-document. As the public key of the signer is known, anybody can verify the message and the digital signature.

Digital Signature Certificate (DSC)

A Digital Signature Certificate is a certificate or digital identity issued by a Certifying Authority (CA) to the holder for establishing his credentials while doing online transactions or e-business on the Digital certificate contains name of certificate holder, serial number which is used to uniquely identify a certificate, expiration date, certificate holder's public key, digital signature of the certificate issuing authority (CA i.e. a trusted third party). Digital Certificates follows Public Key Infrastructure (PKI) meaning data that has been digitally signed by a private key can only be decrypted by its corresponding public key. Digital certificates are based on the ITU standard X.509 which defines a standard certificate format for public key certificates. Hence, digital certificates are sometimes also referred to as X.509 certificates. Digital Signature Certificates are used for sending/receiving digitally signed/encrypted emails, carrying out secure web-based transactions, identification of participants webbased transactions, e-Tendering, e-Procurement, e-filing of income tax returns, signing documents and plays a pivotal role in creating a paperless office.

Digital Signature Types

In accordance to the guidelines of IT-Act and the X.509 Certificate Policy, for India-PKI published by Controller of Certifying Authorities (CCA), the types of digital signatures that can be purchased from the licensed CA as per requirement are as under.

- Signature Certificate
- Encryption Certificate
- Sign & Encrypt Certificate

Signature Certificate

The signature certificates are used by individuals or organizations only for digitally signing documents (or emails) and for online transactions purpose on the web. Signing with digital signature gives the assurance of not only the authentication of the signer but also the integrity of data. It is proof of untampered and unaltered data.

Encryption Certificate

Encryption certificates are used for receiving

encrypted messages which are encrypted using subscriber's public key. Encryption certificate can only be used for encrypting a digital document.

Encryption certificates are popularly used in tender portal, to help companies encrypt the documents and upload. Encrypt certificates are fit for e-commerce documents, legal documentation and sharing documents that are confidential and contains information that needs to be protected.

Sign and Encrypt Certificate

Sign and encrypt certificates can be used for both signing and encrypting. With Sign and encrypt DSC, it is convenient for the users who need to authenticate and maintain confidentiality of the information shared.

Classes of Digital Certificates

In accordance to the guidelines of IT-Act and X.509 Certificate Policy for India-PKI published by CCA. There are mainly three classes of Digital Signature Certificates and each class is used for different purposes :

Class 1 Certificate

Class 1 digital certificates are issued to an individual for personal use. It is mandatory for an individual, applying for a class 1 certificate, to have a valid e-mail id. These certificates are least popular in India. Class 1 certificates are often used to sign documents of a personal nature and not for business uses. These certificates cannot be used for legal business documents as they are validated based only on an email ID and username.

Class 2 Certificate

Class 2 certificates are issued for both business personnel and private individuals use. These certificates are generally issued to the

Director/signatory of the companies for e-filing with ROC (i.e. Registrar of Companies). Class 2 certificates are oftenly used for moderate risk of transactions e.g. Income Tax e-filing, Goods and Services Tax (GST) returns & MCA-21. A person applying for a class 2 certificate has to present a valid identity proof as well as the address proof.

Class 3 Certificate

Class 3 certificates are high assurance certificates. These are issued only after applicant identity verification has been carried out by a RA (i.e. Registration Authority). Earlier, these certificates were issued to applicants only after their personal (physical) appearance before the CA. As per new guidelines of CCA, the applicants will now have to record their video and send it to the CA through a dedicated link. These certificates are primarily used in such environments where threats to data or the consequences of a security failure are high e.g. e-tendering, e-procurement, online participation/bidding in e-auction, Banks (internet banking), IRCTC e-Ticketing (Railway Ticketing Agents) etc.

USB Crypto Token

USB Crypto Token is required to download the Digital Signature Certificate. Key pair gets generated along with Digital Certificate while downloading. A hard token is a password-protected physical USB device in which the digital signature is stored. The terms "Hardware token", "Crypto token", "USB token", "e-token", "dongle" and "digital signature token" are used interchangeably. The Digital Signature Certificate cannot be used without private key. The X.509

Certificate Policy for India PKI mandates that the private key of the DSC of the subscriber should be stored only in a Hardware Cryptographic Module /token. Popular USB Token are: e-Pass, mToken, watchdata.

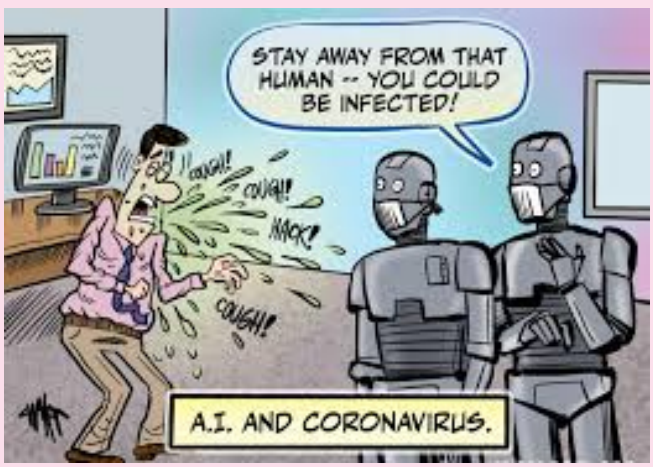

Hence, I can conclude that this is high time for all of us to use the technology in adopting paperless office with our eyes firmly on the goal of bringing real change for our people and making India a true world leader.

कोरोना से बचाव

हव./मंत्र. अंकित श्रीवास्तव
ग्रुप केन्द्र, केरिपुबल, दुर्गापुर

कोरोना, कोरोना, कोरोना, कोरोना कहे मुझसे तुम डरो ना।
अपने स्वास्थ्य का ख्याल, तुम स्वयं से रखो ना।
दो गज की दूरी हमेशा, एक-दूसरे से रखो ना।
बात करते वक्त, मुंह मास्क से तुम ढ़को ना।
कोरोना, कोरोना, कोरोना, कोरोना कहे मुझसे तुम डरो ना।
न हाथ मिलाना और न गले लगाना।
भीड़-भाड़ में मास्क पहनकर एक-दूसरे को बचाना।
घर आकर कपड़े व हाथ अच्छे से धोना।
सैनेटाईजर का उपयोग करके, घर-परिवार को बचाना।
कोरोना, कोरोना, कोरोना, कोरोना कहे मुझसे तुम डरो ना।
छोटी-छोटी बातों को तुम ध्यान रखो ना।
कर उपयोग इन संसाधनों का, अपना बचाव तुम करो ना।
हो सके तो भीड़-भाड़ से दूर रहकर घर-परिवार को बचाना।
कोरोना से लड़ाई में तुम अपना फर्ज निभाना।
कोरोना के कहर से अपने देश को बचाना।
कोरोना, कोरोना, कोरोना, कोरोना कहे मुझसे तुम डरो ना।

कब तक डरी रहेंगी बेटियाँ

उप निर./जीडी प्रमेन्दर कुमार
नव आरक्षी प्रशिक्षण केंद्र, पेरींगम

निर्भया अभी भूल नहीं पाये की,
आसिफा के साथ दरिंदे खूनी मंजर खेल गए,
ना जाने कितनी ट्विंकल घर नहीं पहुँच पाई
कब तक डरी रहेंगी बेटियाँ
जब कोई घटना घटती है तो एक दूसरी कौम को जिम्मेवार ठहराया जाता है
लेकिन सही हल नहीं निकाला जाता है
मैं पूछ रहीं हूँ आपसे, कब तक डरी रहेंगी बेटियाँ
कुछ दिन मोमबती लेकर घूमते रहेंगे
एक दूसरे पर ताना मारते रहेंगे
और फिर भूल जाएंगे
तब तक एक और बेटी न शिकार हो जाए
आखिर कब तक डरी रहेंगी बेटियाँ
कुछ तो ठोस कदम लेना होगा
चाहे निर्भया हो या आसिफा
बेटी तो बेटी होती है
कब तक डरी रहेंगी बेटियाँ

महानिदेशक के दौरे

दिनांक 24 सितम्बर 2020 को 92 बेस अस्पताल का दौरा

दिनांक 07 अक्तूबर 2020 को 206 कोबरा बटालियन का दौरा

निदेशालय के कार्यक्रम

दिनांक 14/09/2020 को महानिदेशक के.रि.पु. बल राजभाषा रनिंग शील्ड प्रदान करते हुए

दिनांक 21/09/2020 को महानिदेशालय में आयोजित आसूचना सम्मेलन के दौरान इन्टेलिजेंस असेसमेंट पुस्तक का विमोचन

दिनांक 28/09/2020 को महानिदेशालय में एडम कान्फ्रेन्स का आयोजन

दिनांक 01/10/2020 को फिट इंडिया कार्यक्रम का उद्घाटन समारोह

दिनांक 02/10/2020 को के.रि.पु. बल के दिव्यांग योद्धाओं द्वारा साईकिल रैली का समापन समारोह

दिनांक 21/10/2020 को कावा की 25वीं वर्षगांठ का आयोजन

विविध कार्यक्रम

दिनांक 14/09/2020 को 100वीं वाहिनी द्रुत कार्य बल में हिंदी पखवाड़े के अन्तर्गत हिंदी व्यवहार एवं टंकण प्रतियोगिता में पुरस्कार प्रदान करते हुए

दिनांक 20/09/2020 को 100वीं वाहिनी द्रुत कार्य बल द्वारा पल्स पोलियो का आयोजन

महानिदेशक के.रि.पु. बल 113 बटा. के दौरे के दौरान वृक्षारोपण करते हुए

महानिदेशक के.रि.पु. बल 113 बटा. के दौरे के दौरान सैनिक सम्मेलन में भाग लेते हुए

184 बटा. के.रि.पु. बल द्वारा चित्रकला प्रतियोगिता के दौरान सफल प्रतिभागियों को सम्मानित करते हुए

ACHIEVEMENTS

JAMMU & KASHMIR THEATER

04/09/2020

CRPF troops (176 Bn) under command of Sh D N Srivastava, AC along with 29 RR, SOG JKP Pattan carried out Cordon and Search operation. During operation an encounter broke out between troops and terrorist. During encounter troops neutralized 03 militants identified as Shafqat Ahmad R/o Delina, Baramulla, Hanan Bilal sofi R/o Old Town Baramulla and Imteyaz Ahmad Mir R/o Kupwara and recovered AK-47 Rifle-02 Nos, Pistol-01 No, AK-47 rounds-14 nos, Pistol rounds-04 nos, AK-47 Mag-04 nos, pouches-03 nos. During encounter troops fired 148 rounds of AK-47. During the course of encounter one army Major and 02 Police personnel sustained bullet injuries and Unit drone (UAV) got damaged. Recovered dead body of militants and arms/ amns handed over to State Police.

07/09/2020

An encounter broke out between troops of 02 RR, SOG Budgam & terrorists during Cordon and Search operation. On receipt of information CRPF troops (44 Bn) joined the operation. Post encounter search troops recovered dead body of slain JeM terrorist identified as Aaqib Ahmad Lone S/o Ghulam Mohd Lone R/o Aglar Kandi, Rajpora, Pulwama, Chinese Pistol- 01, Chinese Grenade-02, AK Rds -12 nos with AK-47 Mag, Mobile Phone with SIM, Baynot along with cover-01 no and other misc items. All recoveries handed over to State Police. FIR being lodged.

11/09/2020

1) CRPF troops (179 Bn) under command of Insp/GD Surender along with SOG Sopore and 22 RR carried out Joint Cordon and Search operation. During operation troops apprehended 01 militant & 02 OGWs of Al-Bader outfit as -1) Un-categorized militant namely Ishfaq Ahmad Pandit s/o Rayees Ahmad Pandit r/o Bunpora, Dangerpora, U/ Ps-Sopore of Al-Bader outfit.
2) OGW namely Abdul Majed Dar s/o Abdul Rashid Dar, Dangerpora, Sopore Distt-Baramulla (J&K) of Al-Bader outfit.
3) OGW namely Mubashir Ahmad Dar S/o Ghulam mohi-ud-din Dar both residents of Dangerpora, Sopore Distt-Baramulla (J&K) of Al-Bader outfit. and recovered 01 pistol, 12 rds of Pistol, 20 Rds of 7.62x39 mm, 01 hand Grenade and 02 Magazines of Pistol from their possession. Apprehended militants and OGWs with recoveries handed over to PS Sopore.

15/09/2020

CRPF troops (75 Bn) under command of Sh Narender Yadav, 2 I/C of 75 Bn along with SOG Srinagar carried out Cordon and Search operation. During operation, troops apprehended 02 JeM terrorists namely 1. Manzoor Ahmad Sofi S/o Nazir Ahmad Sofi R/o Natipora, Srinagar and 2. Hilal Ahmad Parray S/o Mohd Ismail and recovered Pistol-01 No, 9 mm Ammunition- 35 nos rounds, Grenade-01 no and Magazine-02 nos. Apprehended terrorists with recoveries handed over to State Police.

17/09/2020

CRPF troops (28, 73, 117 & 144) under command of Sh Rahul Mathur, DC along with State Police carried out Cordon and Search operation. During operation an encounter broke out with terrorist in which Sh Rahul Mathur, DC got bullet injury (2 bullets, one on the left side of the chest and another in the lower abdomen) and was evacuated to 92 Base Hospital of Army in critical condition. During encounter troops killed 03 militants identified as 1. Zakir Ahmed Paul S/o Nisar Ahmed Paul r/o Aloora Imam Shahib, Distt-Shopian (HM), 2. Ubair Mustaq Bhat S/o Mustaq Ahmed Bhat r/o Badragund, Kulgam (HM) and 3 Adil Hussain Bhat S/o Rashid Bhat r/o Chersoo,

Awantipora (Al-Badar) and recovered 03 Pistols. In the aftermath of above encounter unruly mob gathered at encounter site and started stone pelting upon troops. Dead body of slain terrorists with recovered Pistols handed over to State Police.During encounter troops fired 7.62x39 mm -678 rounds, 9 mm- 23 rounds and UBGL -28 rounds and F/no. 0850710641 CT/GD Ajay Kumar sustained minor injuries on left cheek and MPV mirrors got broken and Radio Set got damaged.

18/09/2020

CRPF troops (130 Bn) under command of Sh Akhand Pratap Singh, AC along with 42 RR and State Police placed Naka. During operation troops apprehended 01 suspect identified as Sameer Ahmed Tantray, (Age-24 yrs) S/O Ghulam Mohd. Tantray r/o Bargam PS/PD-Awantipora, Pulwama (J&K). OGW of HM outfit. Apprehended OGW handed over to PS Awantipora.

20/09/2020

CRPF troops (92, 179 & Range QAT) under command of Sh Harendra Kr Verma, AC along with 22 RR and SOG Wadoora carried out Cordon and Search Operation/ Raid operation. During operation troops apprehended 02 OGW's of Al-Bader Outfit namely 1. Zahid Farooq Sheikh, S/O Farooq Ahmad Sheikh, R/O Idipora Bomai and 2 Sharef-u-Din Ahanger, S/O Gh Mohd. Ahanger, R/O Idipora Bamai and recovered Hand Grenades-01 No., UGBL Thrower-01 No., AK-47 Rds-74 AK Magzines-02 Nos, and Combat Pouch-01 Nos. Apprehended OGW's along with recoveries were handed over to PS Bomai.

21/09/2020

CRPF troops (181 Bn) under command of Sh R.S. Yadav, 2 I/C along with 53 RR, SOG Budgam and State Police carried out Cordon and Search Operation. During operation the militants hiding in the suspected house hurled a grenade and opened fire targeting the troops. Troops retaliated effectively and fired 7.65x39 mm 35 rounds. Post encounter search troops recovered 01 dead body of slain militants identified as Ashif Muzaffar, age-25 yrs, S/o Muzaffar Ahmad Shah belonging to Jaish-e-Mohammad Tanzeem r/o Sambora, Pampore, Distt Pulwama along with Pistol 9mm-01 no with 01 Magazine. During encounter 01 person of 53 RR got minor splinter injury. Recovered dead body with arms handed over to State Police.

24/09/2020

CRPF troops (180 Bn) under command of Sh Mahale Gorakh, 2-I/C, along with 42 RR, SOG Tral and JKP carried out Cordon and Search operation. During operation terrorist lobbed grenade targeting the troops followed by firing. Troops retaliated effectively and fired 30 rounds of AK-47 in retaliation. During encounter troops killed 01 militant identified as Irfan-ul-haq Dar S/o Amin Dar R/o Gadikhal, Ps-Awantipora of Al-badar outfit. Post encounter search troops recovered dead body of slain militant, Pistol-01 no, Pistol Rounds-05 nos and Pistol Magazine-01 no. The dead body and recovered arms/amns handed over to SSP PD Awantipora.

24/09/2020

CRPF troops (116 Bn) under command of Sh T L Haokip, AC along with 3rd RR, SOG Srigufwara and State Police carried out Cordon and Search operation. During operation, an encounter broke out between terrorist and the troops. During exchange of fire local people gathered in large number around the operation site and started pelting stone upon the troops. To disperse the mob troops fired TSM PAG -06 nos. During encounter troops neutralized 02 LeT Militants in which 01 was unidentified as foreign terrorist and 01 is local militant identified as Adil Ahmad Bhat R/o Laroo, Kakapora 01 AK-47 rifle and 01Insas rifle was recovered in this operation.

26/09/2020

CRPF troops (164 Bn) under command of Sh Bhagat Singh Rawat, AC along with SOG Dooru and 19 RR carried out Area Domination/ Mobile Patrolling/ Random Naka. During operation troops apprehended 01 militant namely Talib Ayoub Bhat S/o Late Mohd Ayoub Bhat, age-23

yrs, r/o Dehruna, Ps-Dooru, Distt- Anantnag and recovered Pistol-01, Ammunition-08 rounds, Hand Grenade-01 no and Pistol Mag-01 no. Apprehended militant with recoveries handed over to State Police. FIR lodged.

26/09/2020

CRPF troops (92 Bn) under command of Insp/GD Athoi Shimprui along with 32 RR, SOG Kralgund and State Police carried out Cordon and Search operation. During operation troops apprehended 01 terrorist namely Akeel Ahmad Parray s/o Wali Mohd Parray, r/o Mandigam, PS Kralgund, Distt Kupwara and recovered Pistol-01 no, Rounds-05 nos and Mag-01 no. Apprehended terrorist with recoveries handed over to PS Kralgund.

27/09/2020

CRPF troops (110 Bn) under command of Sh Amzad Raja, AC along with 50 RR, SOG Pampore and State Police carried out Cordon and Search operation. During operation an encounter broke out between troops and terrorist. During encounter troops neutralized 02 militants who were later identified as 1. Ajaz Ahmed Reshi @ Jaja Karate Outfit-LeT S/o Abdul Salam R/o Alamdhar Mohalla, Samboora, PS Pampore and 2.
