Innovations that Teachers can use to make their classrooms more engaging:

- A. In today's increasingly globalised world, it is important to make learning and education a holistic experience beyond classroom academics. Keeping this in mind, Indian schools are introducing various innovations in classrooms to give students all-round development and growth.
- B. The classroom is the original cultivator of true learning and the green house that nurtures talent and creativity. The dynamics between a teacher and students define the essence of a classroom. A great teacher can transform the brick-and-mortar confinement and take students on a journey of pure learning, responding to their doubts and instilling an environment of curiosity and interactivity. Hence, to optimize the learning experience, schools and colleges in India are vying to embrace innovative methods, installing the latest educational technology and encouraging teachers to be more creative than ever. Here's a glimpse of some of the innovative techniques that teachers are trying out to make learning effective, engaging, and fun.
- C. Many educational institutions in India have AV-equipped classrooms or venues to boost students' learning and understanding. Teachers explain difficult subject like Physics/Maths/Chemistry through graphical representation of complex equations with the help of smart-boards. For language learning, the audio-visual equipment is an indispensable tool. Teachers can play snippets of award-winning films, plays, and speeches of great orators, both in vernacular, english, or the target language to facilitate the skills of listening, speaking, and histrionics.

Flip methodology or classroom:-

- A. This technique, to put simply, is to roll the responsibility of learning towards the students and make them active participants of the learning process. B-schools like SP Jain Institute of Management and Research (SPJIMR) and Indian School of Business (ISB) are some of the pioneers of flip classroom in India. Here, teachers relegate to the role of resource or material providers via email or intranet, whereas students take the centre stage of gathering concepts, constructing knowledge, and drawing inferences.
- B. However, the other significant aspect is that teachers follow it up with a discussion session on the given topic on a stipulated day to ensure students' participation, seriousness, and overall learning. Besides discussions, there are group presentations, debates, and essay writing competitions.

“Become addicted to constant and never-ending self-improvement.”

BEST PRACTICES

CIATS, SHIVPURI

- A. The training methodology is was designed using a mixture of information and brainstorming, including online video and digital / geographical data.
- B. The entry level determination assessment of each trainee is done very carefully physically and mentally.
- C. Through close participation of the teacher, the weaker section of the trainee chooses both whether it is related to the subject or their participation.
- D. Instructors are guided by the teachers for better understanding of things related to trainees.
- E. The teachers, through their valuable time and energy, teach weak trainees by additional classes.

RTC, PERINGOME

- A. Hoisting of flag by the best selected Squads of all three Wings weekly.
- B. Showing clipping on Case studies followed by movies on every Saturday for refreshing and providing holistic entertainment.
- C. Inculcate the ethos and values of “PROFESSIONALISM”, “PATRIOTISM”, “PRIDE IN SERVICE”, “DEDICATION”, DEVOTION AND DICIPLINE-3Ps and 3Ds.
- D. Developing of writing skills by arranging essay and poem competitions.
- E. Visit to places of historical and tourist importance to give exposure to trainees about cultural heritage and other aspects of nearby areas.
- F. Practice of “Bend running.” (Adopted from Naxal training video).
- G. Circuit training during PT classes for enhancing endurance of recruits.
- H. Officers and men in the Administrative Block take the pledge in the morning to do their duty with sincerity and punctuality.
- I. Well qualified trainers are made “Chief Training Instructors”, so that they share their knowledge with other trainers and there by imparting quality training to the trainees.
- J. “Virtuousness is our identity” – theme of year 2020, is the main motive to do what is morally good and not to do what is wrong.

“Were all instructors to realize that the quality of mental process, not the production of correct answers, is the measure of educative growth. something hardly less than a revolution in teaching would be worked.”

— John Dewey
