## INNOVATION IN TRAINING

### CRPF ACADEMY

The CRPF Academy started in 2005 with the mandate to impart Basic Training to the Directly Appointed Gazetted Officers of CRPF. With the growing complexity of Internal Security scenario, the officer is to be trained with high standards of physical mental and professional skills like firing skills. As part of this endeavor, a project entitled ARMA 'शस्त्र शक्ति' was designed. ARMA encompasses a cross cut view of all components of Weapons, Ammunitions, Munitions, Grenades, Bombs and their mechanism through condemned/used items (recycled phenomenon) and the same was inaugurated at CRPF Academy on 9 September 2019. The project proved to be a training multiplier in terms of conceptual understanding of the key subject of Weapons/Arms/Ammunitions. ARMA was constructed on the basis of utilizing condemned/used items. All Weaponries showcased are mostly from condemned items. Ammunitions, Munitions, Grenades and Bombs employed for the purpose of mechanism and cross cut views are either Unexploded Ordinances (UXOs) or Remnants of exploded one, fetched from the field and then assembled for display.

ARMA Display Room of CRPF Academy has been awarded for FICCI Smart Policing Award 2020-21 under the category of Training and Capacity Building. The display items were prepared predominantly through recyclable/abandoned waste material.
